This museum is located in the heritage classified wheatbin built in 1939 and has working displays, photographs and models featuring the history of wheat handling.

A machinery annexe displays vintage machinery and artifacts telling the stories of farming and people of the districts through the past century.

The nearby old Railway Station houses the Tourist Information Centre.

INFORMATION

There are 185 species of Acacia (wattles) the largest number to be found anywhere in the world within 100kms of Dalwallinu.

Springtime brings a profusion of flowers, however numbers and varieties are dependant upon seasonal conditions.

There are many great places of historical interest and natural sites to visit and in a good season wildflowers abound throughout the countryside.

Dalwallinu is situated on the Great Northern Highway, 254kms from Perth. The Dalwallinu Shire includes the five towns of, Buntine, Dalwallinu, Kalannie, Pithara and Wubin, all featured during Wattle Week. The main industry of the area is broad acre farming (wheat and sheep).

Self drive tour brochures are available all year from the Dalwallinu Discovery Centre, Dally Café, Gull Service Station, Caravan Park, Shire Office and online at www.dalwallinu.wa.gov.au/about/tourism.
