Officer Comment

The subject property was disposed of by the State Government as being surplus to their anticipated requirements for the township of Wubin. During this disposition and transfer to freehold land the existent land use zoning remained over this site. Rezoning the site to General Industry is consistent with the aims and objectives of the relevant planning framework and will enable a range of future uses to be considered on the site which are currently restricted under its existing reservation for recreation.

The proposed amendment has been determined as being a 'standard' amendment for the following reasons as it is:

- (a) an amendment relating to a zone or reserve that is consistent with the objectives identified in the scheme for that zone or reserve;
- (b) an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment;
- (c) an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area;
- (d) not a complex or basic amendment.

In consideration of a standard amendment to the Scheme, Council must resolve to:

- (a) proceed to adopt the proposed amendment to the local planning scheme without modification;
or
- (b) proceed to adopt the proposed amendment to the local planning scheme with modifications;
or
- (c) not proceed to adopt the proposed amendment to the local planning scheme.

Officer Recommendation/Council Resolution

MOTION 10550

Moved Cr DS Cream

That Council:

1. Adopt the proposed amendment (Amendment No 11) to the *Shire of Dalwallinu Town Planning Scheme No 2* for the purpose of reclassifying:
 - Lot 307 Harris Road North, Wubin as depicted on the Scheme Amendment map;
2. Request approval to advertise the proposed amendment, without modification, from the relevant Minister as per s.83 of the *Planning & Development Act 2005*;
3. Request the Chief Executive Officer to prepare a Notice of the proposed amendment and advertise said Notice in compliance with regulation 47 of the *Planning and Development (Local Planning Schemes) Regulations 2015*;
4. Request that the Chief Executive Officer concurrently refer the proposed amendment to the EPA for their consideration under s.81 of the *Environmental Protection Act 1986*;
5. Determine that the amendment is standard under Regulation 35(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason(s):
 - (a) the amendment would have minimal impact on land in the scheme area that is not the subject of the amendment;
 - (b) the amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area; and
 - (c) the amendment is not a complex or basic amendment.

1. INTRODUCTION

Scheme Amendment No. 11 proposes to reclassify Lot 506 Harris North Road, Wubin (the “site”) from ‘Recreation’ to ‘General Industry’ under the shire of Dalwallinu Local Planning Scheme No. 2 (LPS 2).

2. BACKGROUND

The site is a former Crown ‘C class reserve’ vested in the local government for the purpose of recreation and historically used for the purpose of a public golf course. The level of use of the site has declined over time and a disposition was executed in 2025 to alienate the property and dispose of the site as a freehold title.

This process involved the Minister for Planning undertaking the disposition in accordance with the relevant sections of the **Land Administration Act 1997**, including:

- Section 50 – Management order, revocation of;
- Section 51 – Minister’s powers to cancel, change purpose of or otherwise affect reserve; and
- Section 75 – Transfer of Crown land in fee simple subject to conditions.

The site was sold to the current landowner with the existing ‘Recreation’ reserve retained in place. As the site is currently a freehold land holding, this amendment seeks to reclassify the site to ‘General Industry’ zone to support its highest and best use.

3. SITE CONTEXT & BACKGROUND

3.1. LEGAL DESCRIPTION

Details of the landholding and ownership are contained in **Table 1** below. A copy of the Certificate of Title is included at **Appendix A**.

Landowner	Lot No.	Vol/Folio	Plan/Diagram	Area (Ha)	Road Name/No.
NEW LIFE HOLDINGS WA PTY LTD	506	4078/347	425125	41.87	HARRIS NORTH RD

Table 1: Land and ownership details

3.2. LOCAL CONTEXT

The site is located adjacent the Wubin township on the western side of Mullewa-Wubin Road, with the northern boundary fronting Gunyidi-Wubin Road and the southern boundary fronting Harris North Road. Wubin is situated within the Shire of Dalwallinu local government area.

3.3. EXISTING DEVELOPMENT & LAND USE

Existing development on the site is limited to tee boxes, fairways and greens. There is no club house or any other buildings or development on the site, with the exception of a few sea containers recently delivered for temporary storage.

3.4. SURROUNDING LAND USE AND DEVELOPMENT

Surrounding land is predominantly used for rural activities, except for the following:

- Lot 505 Harris North Road is a recreational reserve and includes a tennis court and club house.
- Lot 92 adjacent the eastern boundary of the site contains a CBH grain depot.

An aerial image of the locality is provided in **Figure 1**.

Figure 1: Aerial image of locality (site highlighted)

(source: DPLH)

3.5. PROPOSED ZONING

An analysis was undertaken to identify zoning that would support the highest and best use of the site. A summary of the assessment for each zone is provided below.

Residential zone: Like most farming towns Wubin flourished post World War 2. Since then, the population of Wubin has slowly declined. In 2007 the Wubin Primary School (established in 1919) was closed by the Department of Education due to declining enrolments. A declining population is supported by ABS statistics summarised in the following table.

Year	Population	Dwellings (occupied)	Dwellings (unoccupied)	Dwellings (total)
2006	146	59	78	137
2016	103	41	14	48
2021	90	28	5	33

Accordingly, Residential zoning of the property is not supported.

Commercial zone: There is no Commercial zone located in the Wubin township, and there is an insufficient population to support this zone. In addition, the Shire of Dalwallinu Local Planning Strategy notes:

The Strategy seeks to consolidate existing residential services, community facilities and amenities, and cultural venues in the Dalwallinu and Kalannie townsites.

Further, LPS 2 notes the primary objective of the Commercial zone is:

To retain Dalwallinu townsite as the focus for commercial, office, civic and cultural and service functions.

Commercial zone is not supported by Wubin's population, or the aims and objectives of the Shire of Dalwallinu Local Planning Strategy & LPS 2. Accordingly, a Commercial zone is not supported.

Townsite zone: Expansion of the Wubin townsite is not supported by the Shire of Dalwallinu Local Planning Strategy.

Rural Residential zone: The declining population of Wubin does not support zoning of the site for additional residential or rural residential purposes. Further, the Shire of Dalwallinu Local Planning Strategy notes:

Rural-residential development will not be supported where it deemed not to be in close proximity to Dalwallinu or Kalannie townsites.

Accordingly, rural residential zone is not supported.

Rural zone: The site is of an insufficient size to support broad acre farming. Accordingly, Rural zone is not supported.

General Industry: Wubin is located adjacent the Great Northern Highway, a critical transport route connecting surrounding agricultural and mining areas to ports and urban centres. The Great Northern Highway is a Strategic Freight Route under the control and maintenance of Main Roads Western Australia (MRWA).

Wubin is an important road train assembly area where the road network permits larger loads north of the township and requires smaller loads to the south and west. The existing road train assembly area northeast of the site is well utilised, with opportunities for complementary land uses contribute to the local economy.

The site's strategic location adjacent a road train assembly area is well suited for storage of materials and equipment being transported to and from regional areas, especially remote mine sites. Other uses supporting the transport industry include (but not limited to) motor vehicle repairs, warehousing and general industry.

Accordingly, General Industry is considered the highest and best use for the site and the supported zone.

4. PLANNING CONTEXT

4.1. SHIRE OF DALWALLINU LOCAL PLANNING STRATEGY

The Shire of Dalwallinu Local Planning Strategy (endorsed by the WAPC on 24 September 2013) endeavours to meet the needs of current and future generations through the integration of environmental protection, social advancement and economic prosperity.

The strategy notes *"The Council will support development in Wubin recognising its role as a transport service centre to the eastern part of the Shire"*.

4.2. SHIRE OF DALWALLINU LOCAL PLANNING SCHEME NO. 2 (LPS 2)

LPS 2 aims to:

- To ensure there is a sufficient supply of serviced and suitable land for a variety of housing types, employment, commercial activities, community, facilities, recreation and open space.
- To assist employment and economic growth by facilitating the timely provision of suitably serviced land for retail, commercial, industrial, entertainment and tourist developments, as well as providing opportunities for home-based employment.

This Amendment supports the above aims and will enable a range of land uses to be considered on the site including (but not limited to):

- Transport depot
- Storage
- Warehouse
- Animal establishment
- Veterinary centre
- Service station
- Fuel depot
- Service utility
- Showroom
- Trade display
- Motor vehicle repair
- Industry light
- Industry – general
- Industry – rural
- Industry - service

4.3. OTHER PLANNING CONSIDERATIONS

A review of the Western Australian Shared Location Information Platform (SLIP) mapping has been undertaken to identify other planning considerations relevant to this amendment. **Table 2** provides a summary of the SLIP mapping reviewed and relevant to the site.

5. CONCLUSION

Scheme Amendment No. 11 proposes to reclassify Lot 506 Harris North Road, Wubin from ‘Recreation’ to ‘General Industry’ under the shire of Dalwallinu Local Planning Scheme No. 2 (LPS 2).

Rezoning the site to General Industry is consistent with the aims and objectives of the relevant planning framework and will enable a range of future uses to be considered on the site which are currently restricted under its existing reservation for recreation.

Officer Comment

The Uniting Church site in Dalwallinu is the historic brick and iron church located on the corner of Myers and McNeill Streets, constructed in 1927 as the town's first church. It is listed on the Shire's Municipal Inventory (Category 4) and remains a prominent landmark.

The proposed amendment to rezone the site from a 'Special Use Zone – Place of Worship' to 'Residential' is supported as it will add potential residential infill sites within the existing town boundaries. It will also satisfy a primary objective under the Dalwallinu Local Planning Scheme in that it will provide for predominantly residential development with a variety of housing to meet the needs of different household types.

The proposed amendment has been determined as being a 'standard' amendment for the following reasons as it is:

- (a) an amendment relating to a zone or reserve that is consistent with the objectives identified in the scheme for that zone or reserve;
- (b) an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment;
- (c) an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area;
- (d) not a complex or basic amendment.

In consideration of a standard amendment to the Scheme, Council must resolve to:

- (a) proceed to adopt the proposed amendment to the local planning scheme without modification;
or
- (b) proceed to adopt the proposed amendment to the local planning scheme with modifications;
or
- (c) not proceed to adopt the proposed amendment to the local planning scheme.

2. Request approval to advertise the proposed amendment, without modification, from the relevant Minister as per s.83 of the *Planning & Development Act 2005*;
3. Request the Chief Executive Officer to prepare a Notice of the proposed amendment and advertise said Notice in compliance with regulation 47 of the *Planning and Development (Local Planning Schemes) Regulations 2015* when the Minister's approval is given;
4. Determine that the amendment is standard under Regulation 35(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason(s):
 - (a) the amendment would have minimal impact on land in the scheme area that is not the subject of the amendment;
 - (b) the amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area; and
 - (c) the amendment is not a complex or basic amendment;
5. Determine that the proposed amendment need not be referred to the EPA under Section 81 of the *Planning & Development Act 2005* due to being deemed exempt under Section 33(c) of the *Environmental Protection Regulations 1987*;

'an amendment to zone land (except land zoned environmental conservation) if the zoning allows the land to be used for a purpose that involves carrying out development within the existing building envelope and is not a light industry, general industry, industrial development or strategic industry purpose'.

RESOLUTION TO AMEND A LOCAL PLANNING SCHEME

SHIRE OF DALWALLINU LOCAL PLANNING SCHEME No.2 AMENDMENT No.12

Resolved that the Local Government, pursuant to Section 75 of the Planning and Development Act 2005, amend the above Local Planning Scheme by:

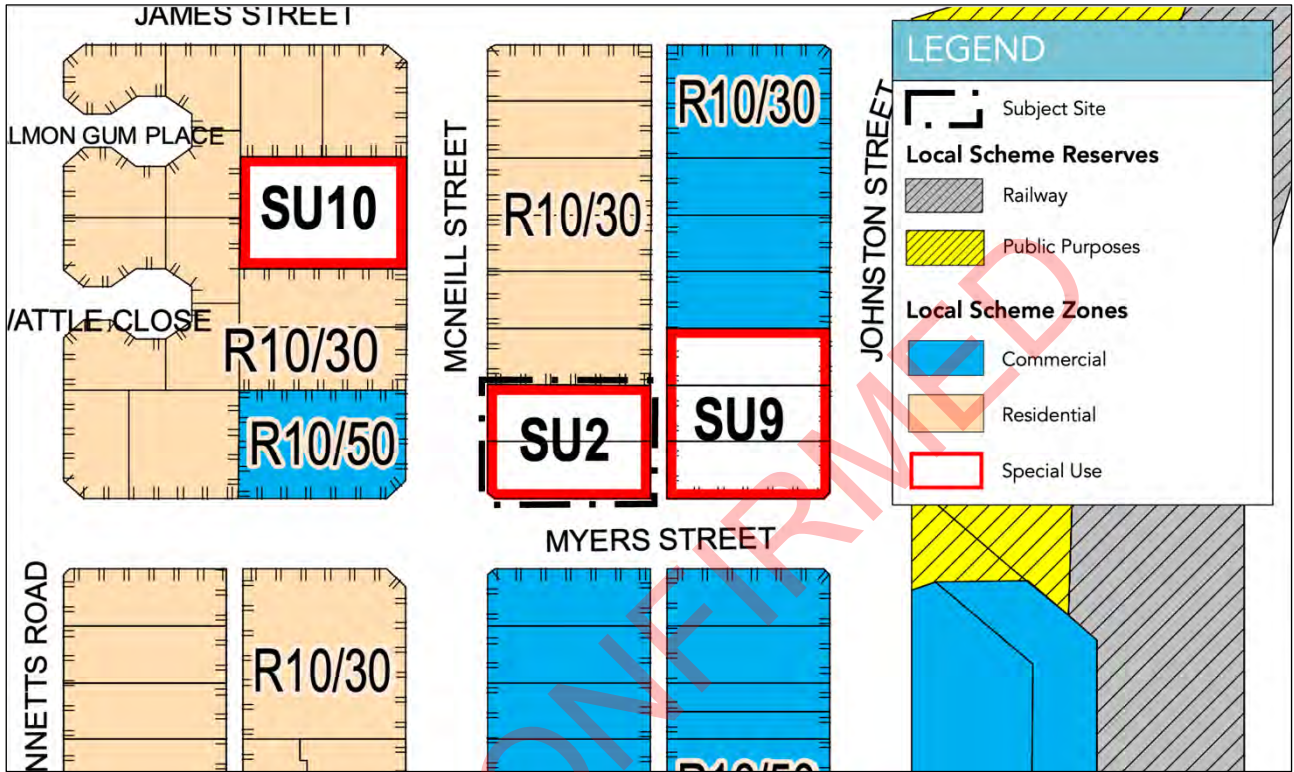

1. Amending the Scheme Map by rezoning Lot 139 (No.32) and Lot 140 (No.34) McNeill Street, Dalwallinu from 'Special Use 2' to 'Residential' and allocating a density code of 'R10/R30';
2. Amending the Scheme Text by removing the following entry from the table of Special Use zones in Schedule 4 – Special Use zones:

SU2	Lots 139 and 140 McNeill St, Dalwallinu	Place of Worship	
-----	---	------------------	--

This Amendment is a standard amendment under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reasons:

1. The amendment will facilitate the development of the site for purposes consistent with the objectives of the Residential zone;
2. The amendment is consistent with the objectives of the Local Planning Strategy as it will increase the supply of residential zoned land in Dalwallinu townsite;
3. The amendment does not result in any environmental, social, economic or governance impacts on land in the scheme area; and
4. The amendment is not a complex or basic amendment.

1.0 Introduction

The Uniting Church in Australia Property Trust (WA) ('UCA') is the owner of the land situated at Lots 139 and 140 (Nos.32 and 34) McNeill Street, Dalwallinu ('site').

This report has been prepared in support of a request to amend Shire of Dalwallinu ('Shire') Local Planning Scheme No. 2 ('LPS2') to rezone the site from 'Special Use 2' to 'Residential (R10/R30)'.

2.0 Subject Site

The site is located in the Shire of Dalwallinu approximately 248 kilometres north-east of Perth.

Figure 1: Regional Location

The site is located in Dalwallinu townsite at the north-east corner of McNeill Street and Myers Street. Johnston Street, the main street of Dalwallinu, is situated 60 metres to the east, while Great Northern Highway (also known as Acacia Way) is approximately 220 metres to the east. A laneway abuts the site's eastern boundary. A mix of uses surrounds the site. The adjoining area to the north, west and south-west is used predominantly for residential purposes, including single houses and grouped dwellings, while land to the east and south fronting Johnston Street is occupied by a range of retail, commercial and community uses.

Figure 2: Site Plan

2.1.1 Cadastral Information

The site comprises two parcels of land, as described in the table below.

Registered Proprietor	Uniting Church in Australia Property Trust (WA)	
Address	32 McNeill Street	34 McNeill Street
Cadastral	Lot 139 on Deposited Plan 229969	Lot 140 on Deposited Plan 229969
Certificate of Title	Volume 827 Folio 186	Volume 934 Folio 5
Land Area	1,012m ²	1,009m ²
Frontage	McNeill Street: 18.1m Myers Street: 48.3m	McNeill Street: 20.1m

2.1.2 Existing Improvements

The site is occupied by the Uniting Church Dalwallinu, a one-storey red brick and iron building constructed in 1927. The building was the first church built in Dalwallinu. To the north of the church is the Anthony Bell Memorial Hall: a weatherboard and iron building constructed in Kununoppin and transported to Dalwallinu in the mid-1970's. The surrounding landscape within the site consists of hardstand gravel parking and a row of trees along the northern boundary.

2.2 Environmental and Heritage Considerations

Given the type of amendment and urban nature of the land subject to the proposed Scheme Amendment, formal environmental reporting has not been undertaken. A desktop review of the environmental characteristics for the site is summarised below.

2.2.1 Bushfire Prone Areas

A review of the Department of Fire and Emergency Services ('DFES') bushfire prone area mapping has identified that no portion of the site is classified as being bushfire prone.

2.2.2 Contaminated Sites

A review of the Department of Water and Environmental Regulation ('DWER') Contaminated Sites Register has identified that the site does not contain a registered contaminated site. There are no known contaminated sites within proximity to the site.

2.2.3 Geomorphic Wetlands

A review of the Department of Biodiversity, Conservation and Attractions ('DBCAs') mapping database confirms that the site does not contain any Geomorphic Wetlands.

2.2.4 Heritage

2.2.4.1 Aboriginal Heritage

A search of the DPLH Aboriginal Cultural Heritage Inquiry System indicates that there are no known areas of Aboriginal Cultural Heritage significance in proximity to the site.

2.2.4.2 State and Local Heritage

A search of the inHerit database confirms the site is listed in the Shire's Municipal Heritage Inventory as follows:

- Uniting Church Dalwallinu (Place No.660); and
- Anthony Bell Memorial Hall (Place No.11916).

The buildings are assigned 'Management Category 4', meaning the place has elements worth noting for community interest but is constrained to be of little significance. The place is not formally included in the Shire's LPS2 Heritage List or the State Register of Heritage Places.

3.0 Town Planning Considerations

3.1 Planning and Development Act 2005

The proposed Amendment to LPS2 is prepared pursuant to Section 75 (b) of the *Planning and Development Act 2005* and in accordance with the relevant provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* (the 'Regulations').

3.2 State Planning Framework

3.2.1 State Planning Strategy 2050

The intended purpose and function of the State Planning Strategy 2050 is to "provide a credible State strategic context and basis for the integration and coordination of land-use planning and development across state, regional and local jurisdictions". It is the highest-order planning instrument in the State and provides guidance for the sustainable use and development of land throughout the State. Under the State Planning Strategy, Dalwallinu is located in the Wheatbelt sub-region. The State Planning Strategy acknowledges Wheatbelt sub-region as a key area for economic diversification, leveraging its agricultural base and emerging opportunities in tourism, renewable energy and mining.

The proposed Scheme Amendment generally aligns with the State Planning Strategy by supporting diversified land uses and increasing the supply of land for residential development in close proximity to Dalwallinu town centre.

3.2.2 State Planning Policies

3.2.2.1 State Planning Policy 3.0 – Urban Growth and Settlement

State Planning Policy 3.0 – Urban Growth and Settlement ('SPP3.0') applies throughout Western Australia. The Objectives of SPP3.0 include:

- *To promote a sustainable and well planned pattern of settlement across the State, with sufficient and suitable land to provide for a wide variety of housing, employment, recreation facilities and open space.*
- *To build on existing communities with established local and regional economies, concentrate investment in the improvement of services and infrastructure and enhance the quality of life in those communities.*
- *To management growth and development of urban areas in response to the social and economic needs of the community and in recognition of relevant climatic, environmental, heritage and community values and constraints.*

The amendment will fulfil these Objectives by increasing the supply of Residential zoned land in close proximity to Dalwallinu town centre.

3.2.2.2 State Planning Policy 3.7 – Planning in Bushfire Prone Areas

The site is not within a declared bushfire prone area and not subject to the provisions of State Planning Policy 3.7 and the associated Guidelines for Planning in Bushfire Prone Areas.

3.2.2.3 State Planning Policy 5.4 – Road and Rail Noise

The site is within the trigger distance of Great Northern Highway which is identified as a strategic freight / major traffic route. Future residential development proposals will need to have due regard to the requirements of SPP 5.4 to mitigate the effects of road / rail noise on residents.

3.2.2.4 State Planning Policy 7.0 – Design of the Built Environment

Future development on the site will need to consider the Design Principles identified in State Planning Policy 7.0, with any residential development required to consider the provisions of the Residential Design Codes.

3.2.3 Regional and Sub-Regional Planning Framework

3.2.3.1 Wheatbelt Regional Planning and Infrastructure Framework

The Wheatbelt Regional Planning and Infrastructure Framework ('Regional Framework') was adopted in 2015 as a strategic planning document to guide future growth and development in the Wheatbelt Region. The Regional Framework acknowledges that the Wheatbelt Region has approximately 12 million hectares of rural zoned land that is principally used for primary production and has potential for rural industries and small-scale tourism.

3.2.4 Local Planning Framework

3.2.4.1 Shire of Dalwallinu Local Planning Strategy

The Shire's Local Planning Strategy ('Strategy') was endorsed by the Western Australian Planning Commission ('WAPC') in September 2013 and formed the basis of LPS2, gazetted February 2014.

The Strategy sets out the Shire's objectives for future planning and development and includes a broad framework to pursue those objectives. Regarding the Dalwallinu townsite, the Strategy sets the primary objective for the Dalwallinu townsite as being:

To promote Dalwallinu as the prime living, business and community for the Shire.

The proposed Scheme Amendment is consistent with the Objectives of the Strategy as it will increase the supply of land zoned for Residential purposes in proximity to the town centre.

3.2.5 Shire of Dalwallinu Local Planning Scheme No. 2

3.2.5.1 Zoning

The site is zoned 'Special Use' under LPS2. The various Special Use sites within LPS2 are listed in Schedule 4 of LPS2. The site is listed in Schedule 4 as 'SU2 - Place of Worship'.

Land to the north, north-west and south-west of the site is predominantly zoned Residential with a density code of R10/30 under LPS2. The property at the north-west corner of McNeill Street and Myers Street is zoned Commercial with a density code of R10/50, while land to the south and north-east is similarly zoned Commercial R10/50. The land immediately to the east is zoned Special Use 'SU9 – Community Hall'.

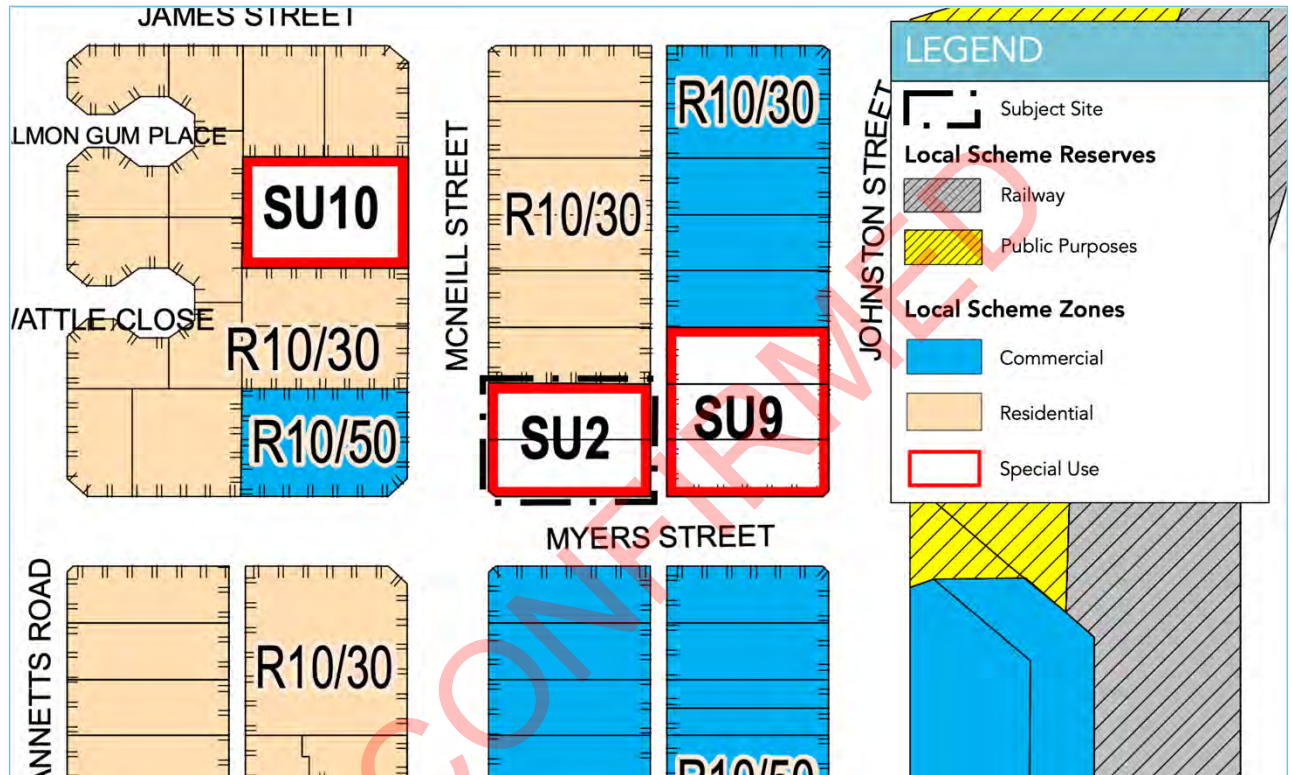

Figure 3: LPS2 Zoning

3.2.6 Special Control Areas

The site is not within any Special Control Areas under LPS2.

3.2.7 Development Investigation Areas

The site is not within any Development Investigation Areas under LPS2.

4.0 Proposed Scheme Amendment

It is proposed to amend LPS2 by rezoning the site from Special Use (SU2) to Residential with a density code of R10/30.

The amendment will increase the supply of land zoned for Residential purposes in Dalwallinu and facilitate the development of a wider range of housing types to meet household needs, consistent with the Objectives of the Residential zone pursuant to Clause 4.2.1 of LPS2.

The proposed density code of R10/30 is consistent with Clause 5.3.1 of LPS2, which reads:

5.3.1 The Residential Design Code for land zoned 'Residential' in Dalwallinu Townsite shall be R10/30 unless otherwise indicated on the Scheme Maps.

Clause 5.3.4 of LPS2 applies to land with a dual dwelling density code:

5.3.4 The Council shall not approve a residential development with a density exceeding R10 unless the Council is satisfied that the development can be connected to a reticulated sewerage system and is in accordance with any relevant government sewerage policy.

If development occurs at the R10 density, the site is capable of accommodating two single houses / grouped dwellings or potentially three aged and dependent persons dwellings / single bedroom dwellings (or a combination thereof). In the event of the site being connected to a satisfactory reticulated sewerage system, the site is capable of accommodating seven single houses / grouped dwellings or up to twelve accessible dwellings / small dwellings (or a combination thereof). The dwelling yield may also be influenced by heritage considerations and the determination pathway for an Application for Development Approval.

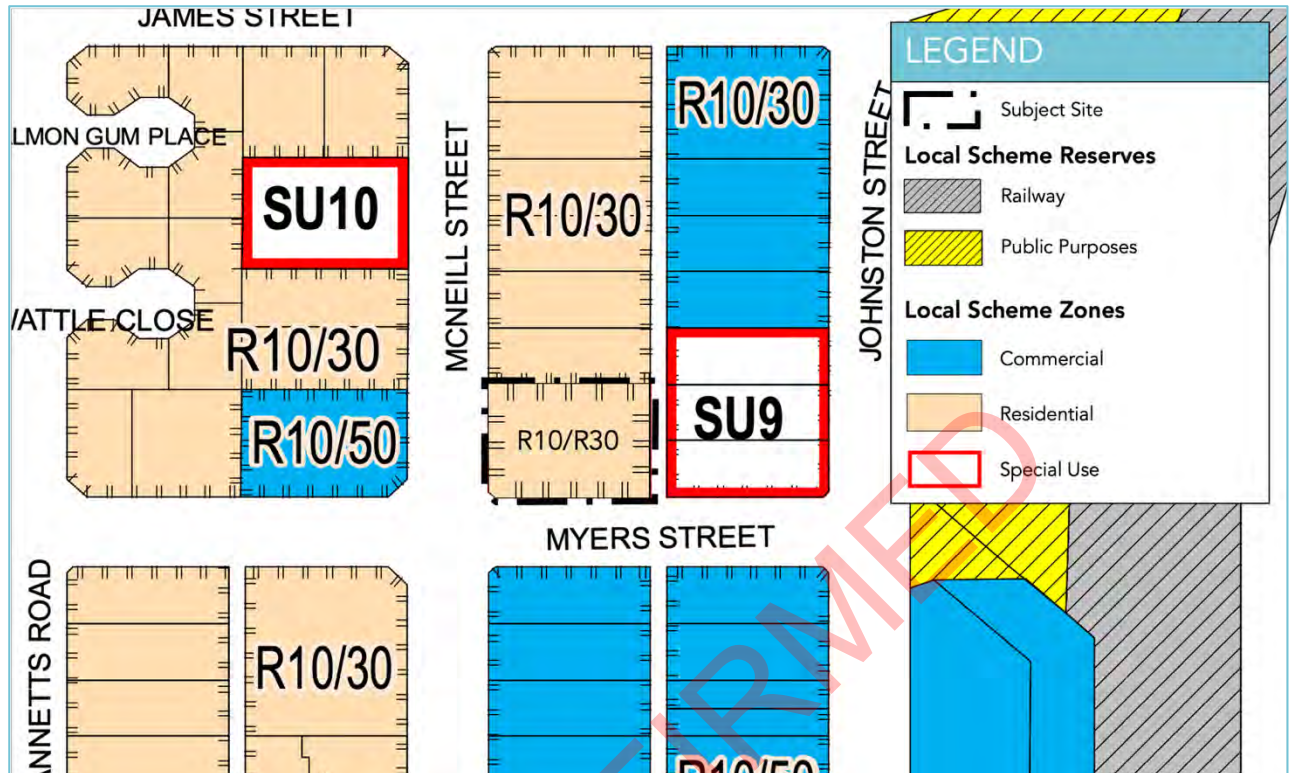

Figure 4: Proposed Zoning

Planning and Development (Local Planning Scheme) Regulations

The Regulations require the resolution of the local government to specify whether, in the opinion of the local government, an amendment to a Local Planning Scheme is a complex, standard or basic amendment.

Pursuant to Regulation 35(2), the proposed Amendment to LPS2 is considered to be a standard amendment for the following reasons:

- The amendment will facilitate the development of the site for purposes consistent with the objectives of the Residential zone;
- The amendment is consistent with the objectives of the Local Planning Strategy as it will increase the supply of residential zoned land in Dalwallinu townsite;
- The amendment does not result in any environmental, social, economic or governance impacts on land in the scheme area; and
- The amendment is not a complex or basic amendment.

5.0 Conclusion

This report has been prepared in support of an Amendment to Shire of Dalwallinu Local Planning Scheme No.2 to rezone Lots 139 and 140 (Nos.32 and 34) McNeill Street, Dalwallinu from Special Use (SU2) to Residential (R10/R30).

The site is owned by the Uniting Church in Australia Property Trust (WA) and occupied by a former Church and Hall constructed circa 1930. The existing buildings are included in the Shire's Municipal Heritage Inventory (Management Category 4). The site is no longer used as a place of worship and is now surplus to the requirements of the owner.

The proposed amendment will increase the supply of Residential zoned land in Dalwallinu to meet demand for housing and is consistent with the objectives of the Shire's Local Planning Strategy. The proposed amendment is consistent with orderly and proper planning.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY FOR THE PERIOD ENDED 31 MARCH 2026

1 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supporting information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

Judgements and estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- impairment of financial assets
- estimation of fair values of land and buildings, infrastructure and investment property
- estimation uncertainties made in relation to lease accounting
- estimated useful life of intangible assets

SIGNIFICANT ACCOUNTING POLICES

Significant accounting policies utilised in the preparation of these statements are as described within the 2023-24 Annual Budget. Please refer to the adopted budget document for details of these policies.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 14 April 2026

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other a

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

All debenture repayments were financed by general purpose revenue.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

SIGNIFICANT ACCOUNTING POLICIES

Investments in associates

An associate is an entity over which the Shire has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

Investments in associates are accounted for using the equity method. The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Shire's share of net assets of the associate. In addition, the Shire's share of the profit or loss of the associate is included in the Shire's profit or loss.

Application Details

1 Dalwallinu District High School P&C – \$ 16,252.50

Dalwallinu District High School P&C are seeking funding to provide shade sails for the high school (secondary) playground area. The school principal and teachers in the secondary area have requested assistance from the P&C to fund shade sails for their playground so the area can be utilised by students in the hotter months as it is currently unable to be used during this time. There is currently no available shade in the area for these students and subsequently, they are restricted to verandahs or the canteen undercover area for morning tea and lunch breaks. Three quotes have been submitted with prices ranging from \$14,775 to \$39,180.

The application meets the community grant eligibility criteria, and it is recommended that their request be funded at \$8,126.25 (50%) of the total cost being \$16,252.50.

2 Dalwallinu CRC - Op Shop - \$1,227.30 (\$1,454.56)

Dalwallinu CRC - Op Shop are seeking funds to purchase a reverse cycle portable air conditioner and extra shelving units for the shop. The Air conditioner will make the shop more comfortable for volunteers and visitors while the shelving units will create more space for the display and

storage of items. (*Please note* The quote for the shelves is for 1 x 5 shelf storage unit however a note on the invoice says they require 2. Cost would therefore be \$227.28 ex gst)
Quotes have been submitted for a total of \$1,227.30 (\$1,454.56 with the extra shelf)

The application meets the community grant eligibility criteria, and it is recommended that their request be funded at \$727.28 (50%) of the total cost being \$1,454.56.

3 Dalwallinu Districts Tourism Inc - \$920.00

Dalwallinu Districts Tourism Inc are seeking funds to purchase 6 x event banners to increase visibility and promote community events throughout Wattle Week, including Bush breakfast, soup night etc. These banners will hopefully attract more people to attend the events.
One quote has been submitted for a total of \$920.00.

The application meets the community grant eligibility criteria, and it is recommended that their request be funded at \$460.00 (50%) of the total cost being \$920.00.

4 Dalwallinu Playgroup - \$6,241.44

Dalwallinu Playgroup are seeking funds to purchase outdoor equipment designed to allow children to learn problem solving, resilience and critical thinking. These interactive tools facilitate stem learning, fine motor development in a fun and engaging way. These toys will build an understanding of motion, engineering and mechanics, fostering open-ended, imaginative play and teamwork when used collaboratively in a small group setting.
One quote has been submitted for a total of \$5,656.44.

The application meets the community grant eligibility criteria, and it is recommended that their request be funded at \$3,120.72 (50%) of the total cost being \$6,241.44.

5 Dalwallinu Netball Association – \$2325.39

The Dalwallinu Netball Association are seeking funds to engage an accredited umpire to facilitate over netball games in the community. This professional umpire provides confidence, knowledge and skills to both the players and other volunteer umpires in a clear and professional way.

Email received 20/04/2026 advising umpire cost of \$848.00.

The application meets the community grant eligibility criteria, and it is recommended that their request be funded at \$424.00 (50%) of the total of \$848.00.

The total funding available under Round 2 is \$10,000. The current total for the four (5) submissions is \$12,858.25.

Round 1 of the Community Grants Program allocated \$1,234.69, therefore there are adequate funds available should Council support funding all of the applications for 2025-2026.

DALWALLINU WA 6609

Shire of Dalwallinu

DALWALLINU WA 6609

To Whom It May Concern:

The Dalwallinu District High School P&C Association Inc. respectfully submits an application for the recently advertised Community Grant opportunity.

Please see below for information on the P&C and our funding request.

Dalwallinu District High School P&C

We are a not-for-profit organisation supporting the Dalwallinu District High School. The school currently has 221 students (69 secondary students).

The P&C are a group consisting of teachers, parents and citizens in the community, whose purpose is to assist the school, promote the interests of the entire school community and bring the school and wider community closer together. The P&C has 14 current financial members who provide the school with services, assistance and support.

We work to provide the school with much needed resources, such as sporting equipment, enclosed outdoor blinds, tools, trees and plants for the school vegetable garden, playground equipment and outdoor fans, to enhance the students learning experience, and overall enjoyment at school, to support teaching staff and to make the school accessible for everyone, all year round.

Currently, our President is Suzie Eaton, Vice President is Sarah Tholstrup (Barnes), Treasurer is Alex Barnes and I am the Secretary.

Secondary Playground Shade Sails

The P&C is striving towards obtaining shade sails for the high school (secondary) playground area, and we are kindly requesting funding assistance from the Shire of Dalwallinu to get this project completed.

School Principal, Mr Justin Burt, and teachers in the secondary area have requested assistance from the P&C to fund shade sails for their playground area so the area can be utilised by students during the hotter months, as it is currently unable to be used (please refer to included photographs for reference).

With the population growth in Dalwallinu in recent years, more students are enrolled at Dalwallinu District High School and students are staying longer. In 2025, there were 19 students in years 11 and 12, a stark contrast to 2023, where there were only 4 students.

There is currently no available shade in the area for these students and subsequently, they are all restricted to verandahs or the canteens undercover area during morning tea and lunch breaks.

Dalwallinu experiences high levels of ultraviolet (UV) radiation during the summer months, when the maximum UV index reaches values of 15 - which corresponds to the Extreme category of sun exposure. (Source: *nomadseason*)

The P&C would like to install shade sails in the secondary playground area as it will give students access to the area all year round, students can keep physically active even in the hotter months, it will encourage socialisation and it will reduce the risk of sunburn, heat related illnesses and exposure to harmful UV radiation.

We have received three written quotes, with prices ranging from \$14,775,00 to \$39,180.00. Custom Shade Sails WA was the most competitive quote, and the design is very suitable for the area.

All quotation documents and related drawings and information have been included in this submission for your review.

We sincerely appreciate the consideration of both the Council and the Shire itself.

Kind regards,

Laura Bradford
Dalwallinu District High School P&C Association Inc.
Secretary

This project is to purchase a reverse-cycle portable air conditioner for the Op Shop. It will help volunteers stay comfortable while working during very hot or very cold weather. This will make the shop safer and more comfortable for volunteers and visitors. The project will also add two shelves to the Op Shop to create more space and improve the display and storage of items.

Project Description – Objectives, expected outcomes and proposed actions / purchases.

Every year the Dalwallinu Netball Association runs a weekly social womens netball competition for all women aged 14+ to socialise, keep fit, and learn the game. Last year we paid for an accreditation umpire from Wongan Hills to umpire our games. It a great benefit to both players and our other volunteer umpires. An umpire at her level was able to build up confidence, knowledge and skills in our young or unexperienced umpires, while also teaching players who were new to the game the rules in a clear, professional way. But here experience comes at a cost that we cannot continue to cover with our other expenses. We would love to continue providing this expert umpiring for our community with this funding.

9.3.4 Request to use the Dalwallinu Recreation Centre Foyer and reconsider Gymnasium membership for personal training clients – Geordi Tanner*

Report Date	28 April 2026
Applicant	Geordi Tanner
File Ref	CU/6 – Customer Service Requests
Previous Meeting Reference	Nil
Prepared by	Hanna Jolly, Manager Corporate Services
Supervised by	Jean Knight, Chief Executive Officer
Disclosure of interest	Nil
Voting Requirements	Absolute Majority
Attachments	Email from Geordi Tanner

Purpose of Report

Council is requested to consider granting a permit to use the Dalwallinu Recreation Centre foyer with no additional cost to extend gymnasium space to run fitness classes at the Dalwallinu Gymnasium and to reconsider allowing Geordi Tanner to allow personal training clients to access sessions without becoming a member of the gymnasium.

This item is brought to Council as Officers have no authority to alter or waive fees and charges or amend Council Policy 7.14 24/7 Gymnasium.

Background

At the Ordinary Council Meeting held 24 February 2026 Council resolved the following:

'MOTION 10520

Moved Cr JL Counsel

Seconded Cr SC Carter

That Council:

- 1. Direct the Chief Executive Officer to advise Geordi Tanner that approval is given for her to undertake fitness classes at the Dalwallinu Gymnasium during the hours of 5:30am and 4:30pm daily and pay the Shire of Dalwallinu \$5.00 (inc GST) per class member;*
- 2. Direct the Chief Executive Officer to enter into an agreement with Geordi Tanner for the use of the premises and the agreement to include that all fitness members are inducted prior to commencement and the supervision of the users remains the responsibility of Geordi Tanner;*
- 3. Direct the Chief Executive Officer to advise Geordi Tanner that she may use the Dalwallinu Gymnasium for personal training on the proviso that all personal training customers must become members of the Dalwallinu Gymnasium;*
- 4. Request that the Chief Executive Officer review this arrangement after six (6) months on 31 August 2026, and if there are no complaints/issues, authorise the Chief Executive Officer to issue a further twelve (12) month approval with the same terms and conditions.*

CARRIED BY ABSOLUTE MAJORITY 6/0'

Ms Tanner commenced fitness classes at the Dalwallinu Gymnasium on 9 March 2026. She is wanting to start using the Dalwallinu Recreation Centre Foyer as an extension to the gymnasium for approximately 5 hours per week depending on numbers. Ms Tanner believes the additional space

would allow safer movement during classes as numbers increase, improve participant experience, accommodate her own equipment and allow mothers to have small children present during classes. She is offering to leave the foyer clean after each use and limit use strictly during class times. She is requesting to use the foyer with no additional cost and not wishing to enter into a separate hire arrangement.

Ms Tanner has also requested Council to reconsider Motion 10520 point 3 '*allowing private personal trainings clients not to become members of the gymnasium*'. She has recently had a participant express interest to undertake additional private training, however the client is hesitant due to the cumulative cost of gymnasium membership, class fees and private session fees.

Officer Comment

The Dalwallinu Recreation Centre Foyer is the entry space into the Dalwallinu Recreation Centre. There is an access door from the gymnasium direct to the foyer. The foyer can be booked for exclusive hire or use in conjunction with Main Hall or Basketball Courts at the Recreation Centre. The current hire fee for the foyer is \$95.00 (inc GST) per day.

The requirement for additional space to run fitness classes was brought up with the applicant in February 2026 when she initially approached the Shire. The Shire Officer organised a guided visit to the facility to ensure the applicant was happy with the limited space of the gymnasium. The applicant was also offered to consider the option of the Dalwallinu Squash Courts as they offer very low-cost space and has been utilised by personal trainers in the past. Dalwallinu Squash Courts can be hired \$5 per hour per court. The applicant has indicated the space is not suitable particularly not being able to utilise the Dalwallinu gymnasium equipment during her classes.

Each booking of a Shire facility does require administration staff to ensure that all bookings are entered into a bookings calendar, ensure there are no other bookings at the venue, organise the cleaning roster accordingly and inspect the facility before and after the booking. The applicant has offered to clean the space after each use but all the other tasks for the administration staff would still be relevant hence it is not the Officers' recommendation to hire the foyer out free of charge.

The Shire has allowed personal trainers to use the space in the past, but the requirement has been that all the clients are members of the gymnasium. As the applicant is utilising the Shire equipment to undertake her private personal training sessions, it is the Officer's recommendation that all private personal training clients would need to be a member of the gymnasium. Current gymnasium membership is \$15 per week, and members are not required to pay the gym portion of \$5 per class if accessing the applicants' classes hence it is not supported that the membership cost would be a barrier for entry.

The applicant is promoting long-term participation in health and fitness which is in line with the Council Plan. Council has granted concessions for not-for profit community-based organisations in the past however, it is to be noted that the applicant is running a private business.

Officer Recommendation/Council Resolution

MOTION 10555

Moved Cr MM Harms

Seconded Cr JL Counsel

That Council:

1. Request the Chief Executive Officer to advise Geordi Tanner that approval is not given to use the Dalwallinu Recreation Centre Foyer free-of-charge;
2. Request the Chief Executive Officer to re-affirm that Geordi Tanner may use the Dalwallinu Gymnasium for personal training on the proviso that all personal training customers must become members of the Dalwallinu Gymnasium.

Subject: Dalwallinu group fitness classes.

Hi Hanna

I am writing to formally request permission to utilise the foyer area of the Dalwallinu Gym as an extension of the current space used for my fitness classes.

As you are aware, I am now operating group fitness sessions five days per week, and I am pleased to say that attendance and community interest are continuing to grow. With this increase in participation, the existing gym space is becoming quite limited, particularly during group sessions where movement and safety are a priority as well as accommodating my own array of exercise equipment and programming ideas.

The use of the foyer would be purely to allow additional space for participants during classes. I would ensure that no equipment or materials are stored in this area, and it would be left clean and clear after each session. Additionally, for daytime classes attended by mothers, the foyer would provide a suitable area to safely accommodate small children in a playpen while their parents participate. I realise there may be at some times Tuesday and Thursday where the foyer maybe booked for something else.

I believe this is a practical and low-impact solution that supports both safety and continued growth of the classes, while also enhancing community engagement and participation in health and fitness.

As you would appreciate, the increased usage of the facility through these classes is contributing to additional revenue for the Shire. Looking ahead, I would also welcome the opportunity to collaborate on reinvesting in the gym for community benefit. One such suggestion would be the addition of a SkiErg. I have assessed the current layout and identified that, with appropriate placement of existing equipment, there is sufficient space to accommodate this safely and effectively.

I would also like to raise a safety matter regarding resistance bands currently in the gym. I have requested that the cleaner remove a set of bands that had already broken and been re-tied. Once bands are frayed or damaged, they are considered unsafe for use, and continued use presents a risk of injury. I felt it was important to address this promptly in the interest of user safety.

Thank you for considering this request. I would be happy to discuss this further at your convenience. Banking of \$195 done today for the fortnight.

Kind regards,
Geordi Tanner

Purpose of Report

Council is requested to consider a request from the Manu Ofiaza on behalf of the Dalwallinu Filipino Community Group 'One Pinoy' for a concession for the fees associated with the hire of the Indoor Basketball Court, Kitchen and Bar Facilities and Main Hall at the Dalwallinu Recreation Centre.

Background

Correspondence was received dated 26 March 2026 and 15 April 2026 from Manu Ofiaza on behalf of One Pinoy Community Group. One Pinoy Community Group have advised that they will require the use of the Basketball Courts, Kitchen and Bar Facilities for Saturday's commencing 19 September through to 17 October 2026 for their Basketball League and Main Hall and Kitchen Facilities for their end of year event on 19 December 2026.

They have requested that Council consider providing them a 50% concession of the normal hire fees.

Concession of 50% has been granted for basketball activities in 2022, 2023 and 2024. No concession has been granted in the past for end of year event.

Requested venues are available for all other hire dates except 5 September 2026.

Should the Council support the officer recommendation, the following fees would be applicable for the requested hire:

Date	Indoor BB Court & Kitchen & Bar	Fee	50% Concession
Sat, 19 Sept 2026	Basketball/Kitchen & Bar facilities	373.00	186.50
Sat, 26 Sept 2026	Basketball/Kitchen & Bar facilities	373.00	186.50
Sat, 3 Oct 2026	Basketball/Kitchen & Bar facilities	373.00	186.50
Sat, 10 Oct 2026	Basketball/Kitchen & Bar facilities	373.00	186.50
Sat, 19 Oct 2026	Basketball/Kitchen & Bar facilities	373.00	186.50
Sat, 19 Dec 2026	Main Hall/Kitchen & Bar facilities	426.00	0.00
TOTAL:		\$2,291.00	\$932.50

Where there is another booking on the same date, the group will be requested to consider the other users of the facility, especially the foyer as this will be utilised by both users.

This year the basketball league is for the entire community and not just the Filipino Community. To assist with their costs, Council could consider offering a 50% reduction in the venue hire fee which is the concession that Council has previously granted. The end of year party has previously not been open for the wider community hence it is officers' recommendation not to grant a concession for that event.

'One Pinoy' is not a registered organisation and therefore they are not eligible to apply for funding under the community grants scheme. As they are not a registered organisation, they are also not eligible for the sports season hire as they do not hold any relevant insurance policies and would need to be covered by the Shire's casual hirers liability. Seasonal hire for sport activities would be considerably cheaper, but it would require the group to become incorporated. It is also recommended that this will be the final discount allowed before the group is incorporated.

2. Decline the concession request for Dalwallinu Recreation Centre Hire Fees for the One Pinoy annual event 19 December 2026, due to the event being private in nature;

Dear Jean,

I hope this letter finds you well.

I am writing on behalf of the One Pinoy Community Group to respectfully request a 50% subsidy or discount on the hire of the indoor basketball court and kitchen at the Recreation Centre for six weekends for our planned basketball league this year.

Although we were unable to run the league last year, there is strong community interest this year. We believe this initiative will provide a positive and healthy activity while encouraging participation, teamwork, and social connection.

Additionally, we would also like to request a 50% subsidy or discount on the hire of the Recreation Centre main hall and kitchen for our annual year-end party in December.

As the One Pinoy Community Group is not yet an incorporated organisation, support from the Shire would be greatly appreciated. If our request is successful, we would be pleased to include the Shire of Dalwallinu logo in our marketing materials alongside our other sponsors and supporters.

Thank you for considering our request. We would sincerely appreciate your support.

Purpose of Report

Council is requested to consider granting a temporary concession on fees associated to group fitness classes at the Dalwallinu Gymnasium run by Geordi Tanner (hirer) from Geonomic Wellness.

This item is brought to Council as Officers have no authority to alter or waive fees and charges.

Background

At the Ordinary Council Meeting held 24 February 2026 Council resolved the following:

'MOTION 10520

Moved Cr JL Counsel

Seconded Cr SC Carter

That Council:

- 1. Direct the Chief Executive Officer to advise Geordi Tanner that approval is given for her to undertake fitness classes at the Dalwallinu Gymnasium during the hours of 5:30am and 4:30pm daily and pay the Shire of Dalwallinu \$5.00 (inc GST) per class member;*
- 2. Direct the Chief Executive Officer to enter into an agreement with Geordi Tanner for the use of the premises and the agreement to include that all fitness members are inducted prior to commencement and the supervision of the users remains the responsibility of Geordi Tanner;*
- 3. Direct the Chief Executive Officer to advise Geordi Tanner that she may use the Dalwallinu Gymnasium for personal training on the proviso that all personal training customers must become members of the Dalwallinu Gymnasium;*
- 4. Request that the Chief Executive Officer review this arrangement after six (6) months on 31 August 2026, and if there are no complaints/issues, authorise the Chief Executive Officer to issue a further twelve (12) month approval with the same terms and conditions.*

Ms Tanner has conducted fitness classes at the Dalwallinu Gymnasium since 9 March 2026. Correspondence was received from the applicant 8 April 2026 requesting temporary 50% fee reduction until conditions stabilise and participation levels recover. The request is based on the flow on effect caused by the rising fuel prices and fitness class participants choosing to go elsewhere or not attend fitness classes at all.

Ms Tanner indicates on her request that her pricing structure has been set with community in mind, ensuring the sessions remain affordable to allow as many people to participate as possible. Ms Tanner indicates on the request that she will not raise her prices. She also highlights the limited space at the Dalwallinu gymnasium and the time taken to bring some of her own equipment to the fitness classes which adds further time and effort and cost to each session.

Officer Comment

The applicant has been conducting classes at the Dalwallinu Gymnasium for four weeks and two days at the time of this request. As such, it is difficult to accurately determine typical participation levels for these classes at this early stage.

It is acknowledged that rising fuel prices, driven by geopolitical factors, may have influenced individuals' spending. However, there is insufficient evidence to directly link these increases to current class attendance levels.

Additionally, the Shire has experienced increased costs across a range of essential services due to higher fuel prices. Many contractors have introduced fuel levies in order to maintain service delivery. These rising costs place pressure on the Shire's budget and operations. In this context, reducing the Shire's fee structure would not represent responsible financial management.

It is also to be noted that applicant was advised of the limited space at the Dalwallinu Gymnasium before her initial request came through. The Shire Officer organised a guided visit to the facility to ensure the applicant was happy with the limited space of the gymnasium.

The applicant is promoting long-term participation in health and fitness which is in line with the Council Plan. Council has granted concessions for not-for profit community-based organisations in the past however, it is to be noted that the applicant is running a private business.

That Council:

1. Decline the request to provide a concession of 50% and request the Chief Executive Officer to advise Geordi Tanner accordingly;
2. Request the Chief Executive Officer to advise Geordi Tanner that no further amendments are granted for Dalwallinu Gymnasium Fitness class fees or operating conditions before 31 August 2026 to ensure the trial period has passed.

Subject: I-COR-30190 - RE: Dalwallinu group fitness classes.

Hi Hanna

Thank you for your response and for addressing each of the items raised — I appreciate your assistance and the process involved.

In relation to the foyer area, I would like to clarify my request further.

Yes, I am seeking to utilise the foyer space for approximately 5 hours (depending on numbers) per week in conjunction with my scheduled group fitness classes. The intention is not to hire the space as a separate or occasional booking, but rather to use it as an extension of the existing gym area to safely accommodate the growing number of participants attending classes.

I have also investigated the option of using the squash court, however it does not lend itself well to my style of training, particularly in being able to access and utilise the equipment I incorporate into my classes. For this reason, the foyer is a far more practical and functional solution.

Given that I am operating classes five days per week on an ongoing basis, this is quite different to the standard casual or one-off hire arrangements. The classes are contributing to consistent and increased usage of the facility, as well as generating regular income back to the Shire through class participation. For this reason, I am requesting consideration for use of the foyer at no additional cost, as part of the broader utilisation of the gym facility rather than a separate hire arrangement.

The additional space would allow for:

- Safer movement during classes as numbers increase
- Improved participant experience
- Accommodation of my own equipment and programming requirements
- A practical solution for daytime classes where mothers may have small children present (contained safely in a playpen)

Importantly, the foyer would be:

- Used only during class times
- Left completely clear and clean after each session
- Not used for storage of any equipment

I believe this approach supports both community engagement and long-term participation

in health and fitness, while also aligning with the Shire's interest in maximising the value and use of the facility.

I would also like to respectfully request that Council reconsider the current requirement for individuals to hold a gym membership when engaging in private personal training sessions. I have recently had a participant express interest in undertaking additional one-on-one training alongside attending classes due to missing a class session with a prior appointment, however they are hesitant due to the cumulative cost of gym membership, class fees and private session fees. Given current financial pressures within the community, this may act as a barrier to participation. Allowing flexibility in this area could encourage greater engagement in personal training, which in turn supports improved health outcomes for community members while still contributing to overall facility usage and revenue for the Shire. I believe this approach would provide a more accessible pathway for individuals while ultimately increasing participation and overall remuneration through increased activity at the gym. Because of my PT sessions with an individual, they developed confidence to attend my classes. Therefore, it's a ripple effect. More participation, more revenue for the Shire.

Thank you also for including the SkiErg in your 26/27 budget considerations — I appreciate that greatly. As mentioned previously, I have assessed the current layout and can confirm there is suitable space available with appropriate equipment placement.

In addition, I would like to suggest a couple of maintenance and equipment considerations:

- The current box jump has become quite soft and may benefit from replacement for safety and usability
- A Bosu Ball would be a valuable addition, allowing for greater variety in balance, stability and rehabilitation-style exercises
- The barbell pad (neck/shoulder protector) has no grip and would be beneficial to improve comfort and safety during barbell work, particularly for participants newer to strength training

Thank you for confirming the removal of the resistance bands. I appreciate the proactive approach to auditing equipment, as safety is always a priority in a training environment. Please let me know if any further information is required to support the foyer request prior to the April Council meeting. I would be more than happy to provide additional detail if needed.

Kind regards,

Geordi Tanner

Dear Councillors,

I am writing to formally request Council's consideration of a temporary reduction in facility fees associated with the delivery of my community fitness classes.

This request is not simply in response to rising fuel costs in isolation, but rather the flow-on effect these costs are having on participation. It is important to clarify that the issue is not whether individuals can physically travel to class it is that increasing costs are influencing decisions, and many are choosing to go elsewhere or, more commonly, to forgo structured fitness altogether. This has a direct impact on class numbers, attendance consistency, and ultimately the sustainability of the service. I will not raise my prices.

My pricing structure has always been set with the community in mind, ensuring sessions remain accessible and affordable so that as many people as possible can participate. Maintaining fair and inclusive pricing has been a priority, even as operating costs have increased. However, this approach also means there is limited capacity to absorb additional financial pressure, particularly when attendance declines.

I would also like to provide context around the current facility. In my previous operating environment, I had access to a significantly larger gym space with a broader range of equipment. While I appreciate the opportunity to operate within Dalwallinu, the smaller facility and more limited equipment impact both the delivery of sessions and the overall experience for participants. To help maintain the quality of classes, I regularly transport and supply additional equipment of my own, which adds further time, effort, and cost to each session.

Taken together reduced attendance, increased operating costs, the need to supply additional equipment, and operating within a more limited facility compared to what I have previously worked with the current arrangement is becoming increasingly difficult to sustain.

I would also like to reference a previous request regarding private PT sessions, specifically to allow flexibility for new participants to engage without being required to take on a full gym membership initially. Removing this barrier would support greater community participation and provide a more accessible entry point for those who may otherwise not engage at all.

In addition, I would like Council to consider flexibility in the use of the foyer area, if required, as class numbers increase. This would assist in managing space constraints and allow sessions to continue to operate effectively and safely as participation improves.

I am therefore requesting that Council consider a temporary 50% reduction in facility fees for a defined period, to allow time for conditions to stabilise and participation levels to recover. My last 2 payments were \$195 and \$145. This would support the continuation of a service that contributes positively to the health, wellbeing, and social connection of the community.

I am committed to continuing to provide an inclusive, supportive, and accessible fitness environment, and I believe this request represents a fair and reasonable approach in the current circumstances.

Thank you for your time and consideration. I would welcome the opportunity to provide any further information if required.

Kindest regards

Geordi Tanner

Sustainability & Climate Change Implications

Economic implications

There are no known significant economic implications associated with this proposal.

Social implications

Housing availability in Dalwallinu is extremely low. This type of facility will assist single and working couples to find suitable accommodation whilst contributing to the economy of Dalwallinu.

Environmental implications

There are no known significant environmental implications associated with this proposal.

Officer Comment

Whilst the demand for a building set up for aged care purposes such as Pioneer House is not required at this time, it is unknown if this kind of facility may be required in the future. In the short-term, Council is requested to consider utilising this building for shared workers accommodation. Availability of accommodation in Dalwallinu is extremely low and single person workers accommodation is even less common.

The proposed criteria for this workers accommodation facility is:

- Must be a current employee of a business in the Shire of Dalwallinu throughout the tenancy. Should they become unemployed the tenancy will be terminated
- Can be single or a couple
- Maximum number of two (2) persons per room
- Agreement to sign the Licence to Occupy

Currently, the Shire of Dalwallinu has two employees that fit the criteria for this type of workers accommodation.

Pioneer House is an ideal building for shared workers accommodation. It consists of:

- Four independent rooms, with built in robes and a bathroom
- Four independent outdoor areas
- Shared kitchen, dining room and lounge room
- Shared laundry

It is proposed that tenants will sign a 'Licence to Occupy'. Due to there being no separate electricity meters, it is proposed to include utilities in the weekly rent. Utilities would include electricity, water and Wi-Fi. In addition, Shire cleaners will attend the property once per week to clean the shared areas (laundry, kitchen, dining, lounge & corridors). It will be the tenant's responsibility to clean and maintain their rooms and the keep the shared areas clean and tidy.

Proposed Weekly Charge

	Rent	Utilities	Total
Single	\$200.00	\$50.00	\$250.00
Couple	\$200.00	\$75.00	\$275.00

It is the Officer's recommendation that whilst Council consider the future of Pioneer House, that it be re-purposed to Workers Accommodation to assist with the housing shortage in Dalwallinu.

That Council:

1. Support the re-purposing of Pioneer House to Workers Accommodation;
2. Adopt the weekly rent (including utilities) per room at Pioneer House as follows:
 - Single - \$250.00
 - Couple - \$275.00
3. Request that the Chief Executive Officer give local public notice that the above fee will be imposed from 1 May 2026.

- Disposing of waste properly
- Turning off air conditioners when away for extended periods of time (more than one day)
- Reporting maintenance issues promptly to the Shire of Dalwallinu Admin Centre

11. Inspections

The property will be inspected every six (6) months. Advance notice will be given to all tenants.

12. Drugs & Alcohol

- Controlled use of alcohol is permitted at the premises
- There is zero tolerance for the use of drugs at the premises
- Illegal substances are strictly prohibited
- Smoking and vaping are strictly prohibited indoors

13. Security

- Rooms must be secured when unattended
- Keys must not be shared
- Lost keys must be reported immediately to the Shire of Dalwallinu Admin Centre

14. Damage & Liability

- Occupants may be held responsible for damage beyond fair wear and tear
- Costs may be recovered in accordance with legal requirements

15. Termination of Occupancy

Occupancy may be terminated if:

- Employment with a business in the Shire of Dalwallinu ends
- This agreement is breached
- Accommodation is no longer required

Notice period by Landlord: Four (4) weeks (or immediate in serious cases)

Notice period by Tenant: One (1) week

16. Vacating Requirements

Upon leaving, occupants must:

- Remove all personal belongings
- Return keys/access items
- Leave the room in a clean condition

17. Complaints & Reporting

Occupants can report issues or complaints to Sheree Sundstrom, Technical Support Officer on 9661 0500 or email tso@dalwallinu.wa.gov.au.

18. Compliance with Laws

This policy complies with applicable Australian laws, including guidance from the Fair Work Ombudsman and anti-discrimination protections overseen by the Australian Human Rights Commission.

Purpose of Report

Council is requested to support advocacy to the WA Department of Health and St John WA for a permanent paramedic to be based in Dalwallinu.

Background

Currently there is a permanent Paramedic based in Wongan Hills and he services Dowerin, Wyalkatchem, Koorda, Kalannie, Dalwallinu, New Norcia, Calingiri and Wongan Hills areas in the Wheatbelt.

The Community Paramedic Program, whilst administered through St John WA, is funded by the WA Department of Health.

Volunteer ambulance services are based in Dalwallinu and Kalannie. However, volunteer numbers are declining, and the nature of the job requires extensive training. This has created pressure on the minimum number of volunteers that we have.

There are no known significant environmental implications associated with this proposal.

Officer Comment

Reliable emergency medical services are essential to community safety, health outcomes and regional sustainability.

The benefits of a permanent paramedic are:

1. Community Safety and Emergency Response

A permanent paramedic ensures timely and reliable emergency response. In regional areas, where distances are vast, delays in care can significantly increase the risk of mortality and long-term complications. Without a dedicated paramedic, reliance on external crews or volunteers can lead to inconsistent coverage and prolonged response times.

2. Access to Advanced Clinical Care

Paramedics provide advanced life-saving interventions that go beyond basic first aid. A permanent presence ensures that residents have consistent access to a high standard of pre-hospital care, particularly during critical incidents such as cardiac arrest, trauma and respiratory emergencies.

3. Reducing Pressure on Health Services

Local healthcare providers, including medical clinics and volunteer responders, benefit from the support of a permanent paramedic. Without this role, there is increased reliance on already stretched services and external organisations such as Royal Flying Doctor Service, which may lead to higher system wide costs and inefficiencies.

4. Strengthening Community Confidence and Wellbeing

The presence of a permanent paramedic contributes to a sense of safety and security within the community. Residents, businesses and visitors are more likely to feel confident living and investing in an area with reliable emergency services.

5. Economic and Regional Development

Emergency service capability is a key factor in attracting and retaining residents, workers and businesses. A reduction in healthcare access can negatively impact economic growth, workforce stability and long-term regional viability.

6. Continuity of Care and Local Knowledge

A permanent paramedic develops valuable local knowledge, including geography, high-risk locations and community health trends. This familiarity enhances response efficiency and patient outcomes, which cannot be replicated by rotating or temporary staff.

7. Preventative Health and Community Engagement

Paramedics often play a role in health education, early intervention and community outreach in partnership with organisations such as St John Ambulance WA. Not having a permanent paramedic reduces opportunities for proactive healthcare and prevention.

The employment of a permanent paramedic under the St John WA model is unlikely to be achieved, however it is recommended that the Shire write to St John WA to request a permanent paramedic and that the Shire engage with Western Australian Local Government Association (WALGA) more broadly, to push for increased State Budget funding in the Community Paramedic Program with the goal of trying to attract more paramedics throughout the region.

Officer Recommendation/Council Resolution

MOTION 10559

That Council request the Chief Executive Officer to:

1. Write to the WA Department of Health and St John WA requesting that consideration be given to basing a permanent paramedic in the Dalwallinu townsite and also to providing increased paramedic numbers throughout regional Western Australia;
2. Write to the Western Australian Local Government Association requesting that it establish an advocacy position to increase State funding for the Community Paramedic Program.

Officer Comment

With the recent global circumstances, Council are aware of the rise in the cost of diesel.

Avon Waste advise that the adjustment that they are seeking is primarily focused on covering additional fuel costs, that could not have been foreseen at the time of tendering for this project in 2025 and that there is no profit component included in the adjusted rates.

While Avon Waste have been prepared to absorb the fluctuation in diesel prices over the past two months, the rises in March were significant, to the extent that they could increase their total fuel costs by over \$1M per annum.

Under the rise and fall mechanism, when prices fluctuate in a downward direction, the amount payable would reduce.

Attention Jean Knight

Dear Jean

RE: Request for rate adjustment in light of sudden rise in Diesel prices.

As discussed during our recent phone conversation, the price of diesel has risen sharply the past month. The price has now led to the Contract for waste and recycling collection services to be not viable.

Further to this, Avon Waste is writing to Council to request some relief from these fuel cost increases and is seeking an adjustment to the contract rates, based upon the increase in diesel since the beginning of March.

In reviewing the situation over the past two months, we have referred to the WA diesel fuel data, available from the Australian Institute of Petroleum's website, which indicates the following changes in the Terminal Gate Price for diesel fuel, for Perth, over the period 1st Feb 2026 to 26th March 2026.

Cost/Litre	Date
\$1.56	1/02/2026
\$3.08	26/03/2026
\$1.52	Change in \$ terms
97.43%	Change in % terms

Given the circumstances, Avon Waste would request that a rise and fall **variation of 17%** be applied to the prevailing contract rates and that this variation be applied from the 1st April 2026.

Please be assured that the adjustment that we are seeking is primarily focused on covering additional fuel costs, driven by global circumstances, that could not have been foreseen at the time of tendering for this project, and that there is no profit component included in the adjusted rates. Also under the Rise and Fall mechanism, when prices fluctuate in a downward direction, the amount payable would reduce.

Whilst Avon Waste has been prepared to absorb the fluctuations in diesel prices over the past two months, the rises experienced in March are significant, to the extent that they could increase our total fuel costs by over \$1M per annum. In the event that prices remain high, it would be unsustainable for us to absorb such increases and would result in the closure of the business.

Given the significance of this issue in carrying out our contract with Council, we trust that this request can be considered and a resolution be arrived at in as timely a manner as is practicable. We would welcome the opportunity to meet with Council &/or address Elected Members, in an effort to expediate this matter.

Please contact me on [REDACTED] if you would like further information &/or clarification in relation to our request.

Yours sincerely,
