Purpose of Report

Council is requested to consider an application for approval to allow for the proposed development of multiple 'sea containers' on the subject land as submitted by the applicant on 19 October 2020.

The proposed development requires discretionary approval from the Council.

It is recommended that the proposed development be approved subject to given conditions.

Background

Subject Property:	Lot 3 Leahy Street, Pithara
Land Use Zoning:	Townsite
Property Owner:	Edward Richards
Applicant:	Edward Richards
Consent Authority:	Shire of Dalwallinu Council
Proposed Development:	Multiple 'Sea Containers' (x2)
Value of Development:	\$12K
Outside Consultation:	Submissions were sought from land owners within a 200m radius of the proposed development. One written submission was received.

The proposal is for the placement of two 'sea containers' on the subject property.

'Sea containers' are defined under the Local Planning Policy #8 as being:

'Redundant shipping containers that have been repurposed.'

The subject property is zoned 'Townsite' under the *Shire of Dalwallinu Planning Scheme N° 2*. Development of more than one sea container is discretionary in the Commercial land use zone. The Council is required to determine an application for discretionary approval.

Site of proposed development – Lot 3 Leahy Street, Pithara

Consultation

No other consultation was sought other than by way of submissions invited from adjacent landholders. One submission was received before the due date (11 November 2020). The submission stated that:

'I have no objections to the proposed plan.'

Legislative Implications

State

Planning and Development Act 2005

The *Planning and Development Act 2005* directs that that any development referred to within the Scheme is not to be commenced or carried out without approval being obtained. Any determination of an application for such development is to be considered under those matters referred to in the *Local planning Policy – Sea Containers #8*.

In considering an application for development approval, Council is to have due regard to the following matters to the extent that, in the opinion of Council, those matters that are relevant to the development the subject of the application.

Sea containers are considered permissible when they are generally:

- *Used in conjunction with an approved use on the lot*

Comment: The property consists of two allotments. The primary land use is residential. The two sea containers are being used for storage purposes ancillary to the existing dwelling.

- *Not located over effluent disposal areas/systems*

Comment: the area is not serviced by deep sewerage. The existing wastewater treatment system is located to the north of the proposed sea container containment area.

- *Not located over water mains, waste water or storm water drains, or underground power lines.*

Comment: the proposed containment area is not located where it may prejudice the operation of the ancillary infrastructure. The location of the water main servicing the property has not been identified.

- *Setback from overhead power lines in compliance with the requirements of the relevant electricity authority*

Comment: Electrical power is supplied to the property from overhead lines along the street frontage (Leahy Street/Great Northern Highway).

The use of sea containers in the Townsite land use zone is permissible when:

- *A maximum of one Sea Container per allotment is allowable provided that their use is ancillary to the approved land use*

Comment: The proponent requests approval for two sea containers, which requires discretionary approval from the Council. It is understood that the sea containers serve to provide storage solutions for the associated dwelling.

- *The placement of the Sea Container is to be in compliance with prescribed setbacks in Table II of Part 5 of the Scheme*

Comment: The Local Planning Scheme does not stipulate setbacks for residential related buildings, however the *State Planning Policy 7.3 – Residential Design Codes* requires that outbuildings be set back at least a metre from any boundary.

- *Sea Containers must be screened from the streetscape (nearby roads, other public places and adjoining neighbours) by suitable vegetation or other appropriate screening.*

Comment: The proponent has submitted a design that incorporates shielding the sea containers from public view by having them in a containment area fenced with 'Neetascreen' proprietary fencing coloured 'Surfmist'.

- *Where Sea Containers cannot be screened, the Shire will require additional design features to be incorporated, e.g. roof structures, doors, cladding*

Comment: as the proposed containment site is to be screened with 1800mm fencing additional features will not be required.

Subject property – Lot 3 Leahy Street, Pithara

Triple Bottom Line Assessment

Economic implications

There are no known significant economic implications associated with this proposal.

Social implications

There are no known significant social implications associated with this proposal.

Environmental implications

There are no known significant environmental implications associated with this proposal.

Officer Comment

An assessment report and recommendation has been prepared taking into account all relevant provisions of the Act and associated regulations.

A site inspection was conducted and consideration has been given to the potential impacts upon all lands adjoining or located nearby.

Council may determine an application for development approval by —

- (a) granting development approval without conditions; or
- (b) granting development approval with conditions; or
- (c) refusing to grant development approval.

It is recommended that the proposed development be approved subject to given conditions.

Officer Recommendation

That the development application (DA 082021) for Lot 3 Leahy Street, Pithara, be approved pursuant to Section 68(2) of the *Planning and Development (Local Planning Schemes) Regulation 2015* subject to the following conditions:

1. The development is to be carried out in accordance with the documents endorsed with the Shire's stamp, except where amended by other conditions of this consent. If there is any inconsistency between the above documents, the most recent document shall prevail to the extent of the inconsistency. However, the conditions of this consent shall prevail to the extent of any inconsistency;
2. The sea containers are not to be used for commercial purposes without the prior approval of the Shire;
3. The sea containers are not to be situated over water mains servicing the property;
4. The proposed fencing for the containment area will be suitably constructed and finished with capping and lapping;
5. Without further written approval from Shire of Dalwallinu, this approval will lapse and have no force or effect after six months of the date of this permit, if the cited development is not completed satisfactorily as per the approved design.

Dear Mrs Knight

**APPLICATION FOR PLANNING CONSENT TO SITUATE TWO SEA CONTAINERS AT 5 LEAHY STREET,
PITHARA WA**

This letter is part of my application for planning consent to situate two 6 metre sea containers on my property at 5 Leahy Street, Pithara.

The location of the sea containers meets the set-back requirements for a townsite zone as described in the Shire of Dalwallinu Town Planning Scheme No 2.

Also, as required, the sea containers will be screened from Leahy Street and the rear right-of-way by an 1800mm high Neetascreen fence.

The sea containers will be painted in a paperbark colour and the fence colours will be a black frame with white infill panels.

Please refer to the drawings and details submitted in support of this application for all relevant information.

I hope Council will give favourable consideration to this application.

Yours sincerely

Officer Comment

Financial Reports as at last day of business of the previous month are appended, for the period ending 31 October 2020. It is to be noted that that opening balances on these financial statements might need further adjustments as the year ending 30 June 2020 has not been finalised yet.

Attached for council's consideration are:

1. Statement of Financial Activity
2. Variance Reports
3. Investments Held
4. Bank Reconciliations

As per Council resolution, all items that have a variance of more than \$10,000 have been noted on the variance reports.

Officer Recommendation

That the Council accept the Financial Reports as submitted for the month ending 31 October 2020.

MONTHLY FINANCIAL REPORT

FOR THE PERIOD ENDED 31 OCTOBER 2020

BASIS OF PREPARATION

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996*, Regulation 34. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not in accordance with the requirements of *AASB 1051 Land Under Roads paragraph 15* and *AASB 116 Property, Plant and Equipment paragraph 7*.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 12 November 2020

SIGNIFICANT ACCOUNTING POLICIES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 15 to these financial statements.

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

Inventory

Inventories are measured at the lower of cost and net realisable value.

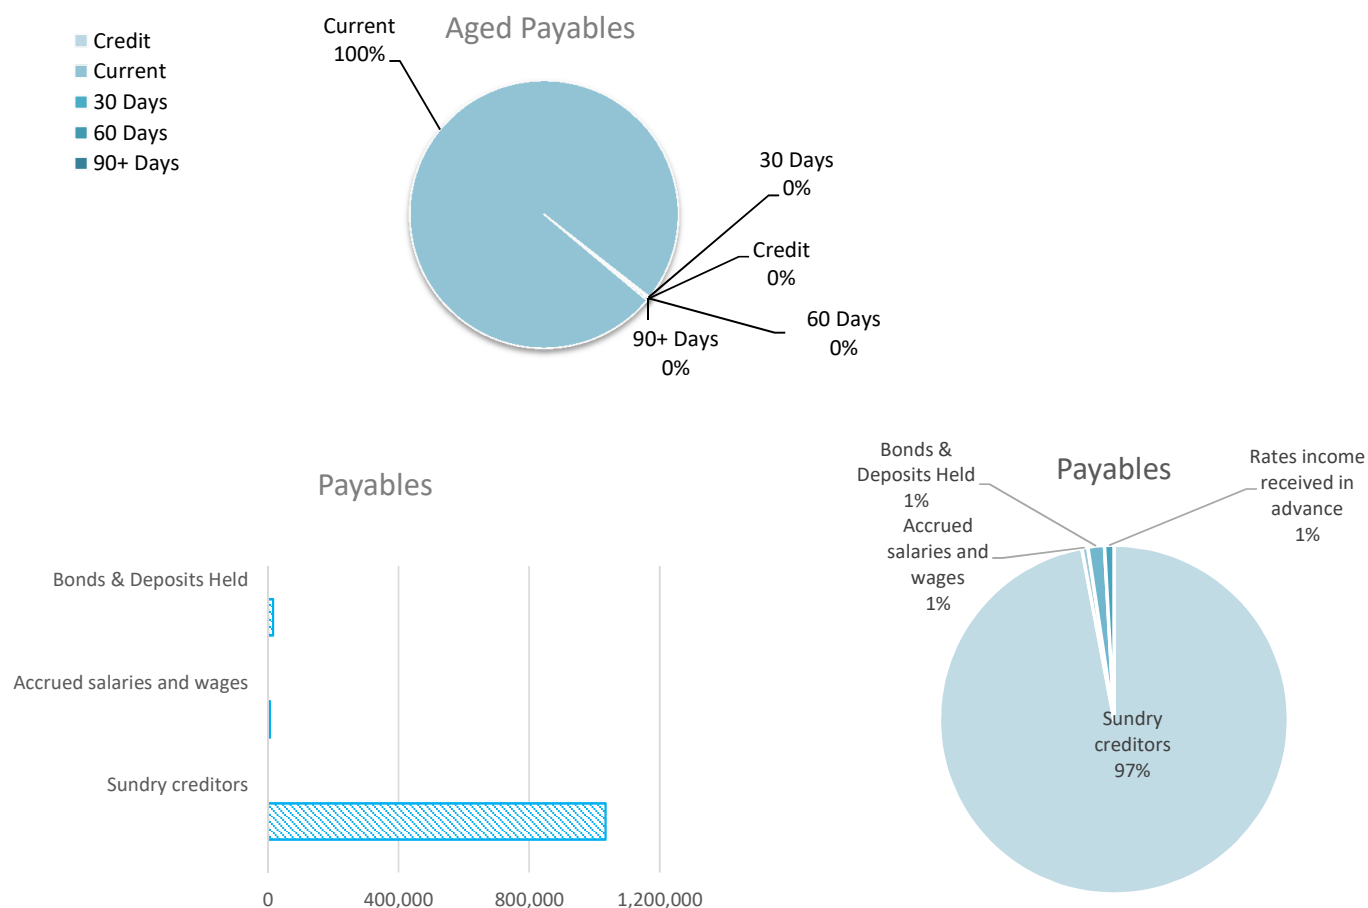

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

KEY INFORMATION

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Rates received in advance give rise to a financial liability. On 1 July 2020 the prepaid rates were recognised as a financial asset and a related amount was recognised as a financial liability and no income was recognised. When the taxable event occurs the financial liability is extinguished and income recognised for the prepaid rates that have not been refunded.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

All lease repayments were financed by general purpose revenue.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Purpose of Report

Council is requested to provide feedback for the proposed Draft *Local Government (Administration) Amendment Regulations 2020* – Model standards for CEO recruitment, performance and termination.

Background

The *Local Government Legislation Amendment Act 2019* introduced numerous amendments to the *Local Government Act 1995*, including the yet to commence insertion of new sections introducing model standards for CEO recruitment, performance and termination.

In March 2019, the Department of Local Government, Sport and Cultural Industries (DLGSC) invited WALGA and other parties to participate in the CEO Recruitment, Performance Review and Termination Working Group to develop Model Standards. The Department discontinued the Working Group in May 2019 and released a Consultation paper without endorsement by the Working Group in October 2019.

At the WALGA State Council meeting held in December 2019, based on sector feedback, State Council resolved to request that the Working Group be reconvened to develop and endorse Model Standards for further sector consultation and identified several concerns with the proposals in the Consultation paper.

Throughout 2020, WALGA sought advice from the Department on the progress of draft regulations and a sector consultation process. The Department has now released the draft *Local Government (Administration) Amendment Regulations (No.2) 2020*, to prescribe the Model Standards, together with Explanatory Notes.

The consultation period was initially set at Friday 13 November 2020. This did not give many Councils the opportunity to provide feedback. WALGA have now been successful with an extension to the feedback period to Sunday 6 December 2020.

Officer Comment

WALGA notes that the Working Group was not reconvened, and the Draft Regulations include several elements that were highlighted as matters of concern by the sector.

WALGA provides the following information as their initial concerns:

1. Requirement to re-advertise CEO positions after 10 years of continuous service

Section 5.39(2)(b) of the *Local Government Act 1995* already limits CEO contracts to a maximum of five (5) years and Councils have general competence powers to consider whether to renew the incumbent's contract or advertise the position. Suggesting that a Council **MUST** re-advertise the position of a CEO after ten (10) years is likely to prove unworkable or counterproductive in any case as:

Councils conducting a selection process known to involve an incumbent CEO will risk allegations of non-compliance with Section 5.40 of the *Local Government Act 1995* 'Principles affecting Local Government employees' due to actual or perceived bias, nepotism and lack of merit and equity in relation to other applicants;

Officer Comment

Agree with comments as if the incumbent applies for the position, there could be perceived bias in the selection process due to the panel knowing the candidate.

- May result in CEOs actively seeking alternative employment as the ten (10) year horizon approaches, meaning that a CEO that has provided satisfactory or perhaps exemplary service will be unnecessarily lost to the local government;

Officer Comment

If a CEO is having the annual performance review and is performing well, and then the position has to be re-advertised, this will cause angst to the incumbent and may see an already well performing CEO lost to the organisation as they would rather not be put through the selection process for their own job.

The proposal significantly diminishes the general competence powers of Councils in relation to critical decisions around ongoing relationships with an existing CEO.

A letter from the Department states that the recommendation is “intended to ensure local government are testing the market”. This makes no sense as a Council has the power to ‘test the market’ whenever a contract ends.

CEOs set organisation culture and values. Uncertainty about who will be the future CEO as a CEO approaches 10 years with a local government will inevitably cause unrest and unease amongst the staff and distract from high quality work performance.

CEO’s will, almost certainly, become risk averse as they approach 10 years with a local government and know they have to contend with a full public selection process. This risk averse approach is broadly acknowledged as providing the best opportunity to become the successful candidate. However, the implications are that the whole local government will become more risk averse and less able to provide good governance to the people of the district.

When the position is advertised, will the candidates who are considering applying be deterred by the fact that the incumbent has had good performance reviews in the past and is the advertisement just ensuring compliance rather than being a genuine recruitment process.

Why should local governments be forced to re-advertise after ten (10) years? Does State Government make this a requirement for their Senior Employees?

- Where a CEO is re-employed as a consequence of re-advertising after the ten (10) year period, this process has incurred unnecessary costs and time waste for the LG, distracting from achieving its strategic objectives and may further entrench perceptions that contracts are for life, thus negating the very purpose of this proposal.

Division 3 of the Draft Regulations seeks to improve the capacity of local governments to effectively manage CEO employment. This is a far more appropriate and adapted mechanism to address a perceived issued of ‘contracts for life’, by ensuring that the performance of CEO’s whether long serving or newly appointed, is appropriately assessed and managed.

Officer Comment

The cost to advertise a CEO position could easily exceed \$30,000 in addition to the time to undertake interviews and select a successful candidate. This is an unnecessary cost when a CEO is performing well and there is no need to advertise the position until required to do so.

2. Independent Panel Member

Clause 8 of the Draft Regulations requires the selection panel to include at least one person who is neither a council member nor an employee of the local government. There is no guidance on the skills,

experience or knowledge of the independent person, or their role on the panel. This has the potential to pose significant risk to the local government, as there are inadequate controls on the conduct of such a person (i.e. they will not be captured by a Code of Conduct as Panel is not a committee of Council). WALGA supports the ongoing use of an independent qualified and licensed recruitment consultant to provide guidance (as opposed to active participation) in both the recruitment process and to assist with obligations to finalise the employment of a CEO.

Officer Comment

There is no rationale with this amendment. Council are elected by the community to provide good governance to the district. The requirement to have an independent member appointed to the panel serves no benefit.

3. Transparency and procedural fairness – Schedule 2

The consultation draft emphasised that it is essential that the recruitment process is transparent and appropriately documented. The selection panel is ‘established’ under Cl.8 of Schedule 2 of the Draft Regulations, with no reference to the formation of a Committee of Council under Section 5.8 of the Act. Cl.9(4) of Schedule 2 includes a reference to the selection panel acting in accordance with the principles of S5.40 of the Act. Similarly Cl.14 requires the local government to ensure confidentiality of information provided, rather than imposing this responsibility equally on the selection panel, or individual members.

If the selection panel were established as a committee in accordance with s.5.8 of the Act, the requirements relating to the calling and convening of meetings, keeping of minutes and agendas, confidentiality, declaration of conflicts of interest and application of the Code of Conduct would apply.

The Draft Regulations will delete current r.18C, requiring a local government to approve a process for the selection and appointment of a CEO. Schedule 2 does not include a similar requirement for the selection panel to follow a process decided upon by the Council. This removes Council from important input in, or oversight of, the process by which the selection panel assesses the candidates and makes recommendations.

Officer Comment

The selection panel should be established as a committee so that records are kept and code of conduct applies. The deletion of r.18c removes Councils input into the selection process and is not supported as this is one of Council’s main roles; to employ a CEO.

4. Council decision making authority

Schedule 2, Cl.9(2)(a) requires the selection panel to recommend one or more applicants it considers suitable, with Cl.9(2)(b) requiring that it advise Council if it considers no applicants are suitable. In the second event, Cl.10 requires the local government to carry out a new recruitment process. Bypassing Council in this decision-making process appears to directly conflict with Sec 5.36(2) of the Act, where it is the Council that determines if a person is or is not suitably qualified to be employed as CEO.

Officer Comment

Disagree with the above amendments. Council should be determining who is to be employed as the CEO.

Officer Recommendation

That Council:

1. does not support:
 - a) The requirement to re-advertise CEO positions after ten (10) years of continuous service;
 - b) Does not support the introduction of an independent panel member for the CEO recruitment process;
 - c) The establishment of a selection panel unless it is formed as a Committee of Council;
 - d) Bypassing Council in the decision making process for the determination of the suitability of a candidate for the CEO position;
2. Directs the Chief Executive Officer to provide the above feedback to WALGA by Sunday 6 December 2020.
