Purpose of Report

Council is requested to consider the disposal of surplus plant.

Background

The Komatsu Grader was purchased in 2016. In the current financial year it has only done 231 hours compared to the Caterpillar Grader (DL122 Maintenance) of 1,347 hours. Given that Council has gone to contract for the majority of maintenance grading and efforts to employ qualified operators have not been successful, this grader is considered surplus to requirements.

The Mack Tipper/Water truck was purchased in 2009. In the current financial year it has only done 6,730 kms compared to the Mack Prime Mover (DL80) with 26,971 kms.

Given that Council has gone to contract for truck hire, this plant item is considered surplus to requirements.

9.2 PLANNING & DEVELOPMENT
9.2.1 Proposed Industrial Buildings (DA 101920)*

Report Date	26 May 2020
Applicant	Rowe Group <i>obo</i> Hanwha Mining Services Australia Holdings P/L
File Ref	A57
Previous Meeting Reference	Nil
Prepared by	Doug Burke, Manager Planning & Development Services
Supervised by	Jean Knight, Chief Executive Officer
Disclosure of interest	Nil
Voting Requirements	Simple Majority
Attachments	Supporting Documentation

Purpose of Report

Council is requested to consider an application for approval to allow for the proposed development of a number of 'industrial buildings' on the subject land as submitted by the applicant on 9 March 2020.

The proposed development requires discretionary approval from the Council.

It is recommended that the proposed development be approved subject to given conditions.

Background

Subject Property:	Lot 115 Thomas Road & Lot 117 Mullewa-Wubin Road, Wubin
Land Use Zoning:	Rural – with additional uses
Property Owner:	Hanwha Mining Services Australia Holdings P/L
Applicant:	Rowe group
Consent Authority:	Shire of Dalwallinu Council
Proposed Development:	Detonator Manufacturing Facility and Storage Magazines
Value of Development:	\$1,984K
Outside Consultation:	Public advertising as per r.64 of the <i>Planning and Development (Local Planning Schemes) Regulations 2015</i>

The proposal is for the construction of a manufacturing facility and storage buildings to be utilised by the existing industrial entity, Hanwha Mining Services. The entity has prior approval (DA 151718) to manufacture ammonium nitrate emulsion for the mining industry.

The proposed buildings are aptly drawn to scale in Attachment 2 of the application document. The development will consist of the following:

1. Detonator assembly building.
2. Base Cap Store
3. Detonator test building

4. Assembly building 5. Magazines (x5) 6. Roads, drainage, fencing & hardstand areas

Industrial buildings are defined under the Planning and Development (Local Planning Schemes) Regulations 2015 as being:

'premises used for the manufacture, dismantling, processing, assembly, treating, testing, servicing, maintenance or repairing of goods, products, articles, materials or substances and includes facilities on the premises for any of the following purposes —

- (a) the storage of goods;*
- (b) the work of administration or accounting;*
- (c) the selling of goods by wholesale or retail;*
- (d) the provision of amenities for employees;*
- (e) incidental purposes;.*

The subject property is zoned 'Rural' under the *Shire of Dalwallinu Planning Scheme N° 2*. General Industry type development is not generally permitted in the Rural land use zone, however, an amendment was made to the planning scheme in 2016 to allow for additional uses on the subject land which allows for the consideration of any proposal that constitutes '*Storage of dangerous goods and associated manufacturing*'.

Consultation

The proposal was advertised for a period from 27 March 2020 inviting submissions from the public. Adjoining landholders were corresponded with directly. One submission was received from the owner of an adjoining property (refer to attachments).

The identified issues raised by Ms Gail Baker were:

1. Proximity of proposed development to sensitive land uses on adjoining land;
2. Risk of bushfire events on the proposed development.

The applicant was invited to respond to the issues raised in the submission. Rowe Group provided a response to the submission on 7 May 2020 citing outlined management procedures to mitigate perceived risk (refer to attachment).

Legislative Implications

State

Planning and Development Act 2005

The *Planning and Development Act 2005* directs that any development referred to within the Scheme is not to be commenced or carried out without approval being obtained. Any determination of an application for such development is to be considered under those matters referred to in the *Planning and Development (Local Planning Schemes) Regulation 2015*.

In considering an application for development approval, Council is to have due regard to the following matters to the extent that, in the opinion of Council, those matters that are relevant to the development the subject of the application. In assessing the development application, the matters

listed in Section 67 of the *Planning and Development (Local Planning Schemes) Regulation 2015* have been taken into consideration for the preparation of this report and are addressed as follows:

'Matters for Consideration'	Comments
The aims and provisions of this Scheme and any other local planning scheme operating within the Scheme area	<p>The following Schemes are applicable:</p> <p><i>Shire of Dalwallinu Planning Scheme N° 2</i></p> <p>The applicable objective for the Rural land use zone is:</p> <p><i>'To provide for a range of rural pursuits that are compatible with the capability of the land and retain the rural character and amenity of the location.'</i></p>
The requirements of orderly and proper planning including any proposed local planning scheme or amendment to this Scheme that has been advertised under the <i>Planning and Development (Local Planning Schemes) Regulations 2015</i> or any other proposed planning instrument that the local government is seriously considering adopting or approving.	<p>There are no proposed amendments in progress that would affect a determination.</p> <p>There are no other planning instruments currently being considered.</p>
Any approved State planning policy	Nil identified
Any environmental protection policy approved under the <i>Environmental Protection Act 1986</i> section 31(d)	Nil identified.
Any policy of the Commission	Nil applicable
Any policy of the State	Nil applicable
Any local planning policy for the Scheme area	Nil applicable

Any structure plan, activity centre plan or local development plan that relates to the development	Nil applicable
Any report of the review of the local planning scheme that has been published under the <i>Planning and Development (Local Planning Schemes) Regulations 2015</i>	Nil applicable
In the case of land reserved under this Scheme, the objectives for the reserve and the additional and permitted uses identified in this Scheme for the reserve	Not applicable
The built heritage conservation of any place that is of cultural significance;	No items of cultural significance noted
The effect of the proposal on the cultural heritage significance of the area in which the development is located;	Nil impact
The compatibility of the development with its setting including the relationship of the development to development on adjoining land or on other land in the locality including, but not limited to, the effect of the height, bulk, scale, orientation and appearance of the development	The proposed development is regarded as being ancillary to existing development on the site and suitable in the context of its siting.
The amenity of the locality including the following — (i) environmental impacts of the development; (ii) the character of the locality; (iii) social impacts of the development	Nil issues identified
The likely effect of the development on the natural environment or water	The application proposes that storm water runoff from the site would be diverted from the

<p>resources and any means that are proposed to protect or to mitigate impacts on the natural environment or the water resource</p>	<p>development and any storm water derived from the development would be diverted to a bio-infiltration basin located adjacent to the work site.</p>
<p>Whether adequate provision has been made for the landscaping of the land to which the application relates and whether any trees or other vegetation on the land should be preserved</p>	<p>The development will require a small footprint on a pre-existing rural (cropping) property. The surrounding land uses are predominantly rural with cropping being the major use.</p> <p>Native vegetation was cleared from the site many years ago to enable agricultural activities. There is no evidence of significant trees or other vegetation of note that should be retained.</p>
<p>The suitability of the land for the development taking into account the possible risk of flooding, tidal inundation, subsidence, landslip, bush fire, soil erosion, land degradation or any other risk</p>	<p>The land does not have a history of experiencing these types of events.</p> <p>A bushfire management plan has been submitted with the application supplementary to a 'Flammable Onsite Hazards Risk Management Plan'.</p> <p>An application for a Works Approval was approved by the Department of Water and Environmental Regulation.</p>
<p>The suitability of the land for the development taking into account the possible risk to human health or safety</p>	<p>This issue has been addressed in the bushfire management plan prepared by Bushfire Prone Planning.</p> <p>An application for a Works Approval was approved by the Department of Water and Environmental Regulation.</p>
<p>the adequacy of —</p> <p>(i) the proposed means of access to and egress from the site; and</p> <p>(ii) arrangements for the loading, unloading, manoeuvring and parking of vehicles</p>	<p>Frontage to a sealed road (Mullewa-Wubin Road) and an unsealed road (Thomas Road).</p> <p>The parking and unloading issues have already been addressed within the scope of the existing development.</p>

<p>The amount of traffic likely to be generated by the development, particularly in relation to the capacity of the road system in the locality and the probable effect on traffic flow and safety</p>	<p>Employee vehicles and those commercial vehicles required to deliver raw material and retrieve and transport any finished product.</p> <p>Given efficiencies built into the newly developed emulsion plant, it is envisioned by the traffic impact assessment that there should not be an increase in heavy vehicle movements to or from the site.</p>
<p>The availability and adequacy for the development of the following —</p> <ul style="list-style-type: none"> (i) public transport services; (ii) public utility services; (iii) storage, management and collection of waste; (iv) access for pedestrians and cyclists (including end of trip storage, toilet and shower facilities); (v) access by older people and people with disability 	<p>No public transport services available.</p> <p>Electricity and potable water are available.</p> <p>Solid waste can be adequately stored and removed from site.</p> <p>A wastewater treatment system has been development onsite to service the previously approved development. Given that there is no proposal to increase wastewater generation, no requirement for an expansion of the existing facility is deemed necessary.</p> <p>The development is not a public access facility and as such the provision of equitable access for pedestrians, cyclists and older people or those with a disability is not envisioned nor set as a requirement.</p>
<p>The potential loss of any community service or benefit resulting from the development other than potential loss that may result from economic competition between new and existing businesses</p>	<p>Nil impact anticipated.</p>
<p>The history of the site where the development is to be located</p>	<p>Prior use was as a private property previously cleared of native vegetation to allow for cereal cropping.</p>
<p>The impact of the development on the community as a whole notwithstanding the impact of the development on particular individuals</p>	<p>Nil identified</p>

Any submissions received on the application	One submission was received after the proposed development was advertised. Copies of the written submission and the applicant's response are in the attachments.
The comments or submissions received from any authority consulted under clause 66	No other statutory, public or planning authority was identified as being necessary for further consultation.
Any other planning consideration the Council considers appropriate	Nil

There are no known significant environmental implications associated with this proposal.

Officer Comment

An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Act and associated regulations;

A site inspection was conducted and consideration has been given to the potential impacts upon all lands adjoining or located nearby.

Council may determine an application for development approval by —

- (a) granting development approval without conditions; or
- (b) granting development approval with conditions; or

(c) refusing to grant development approval.

It is recommended that the proposed development be approved subject to given conditions.

Officer Recommendation/Resolution

MOTION 9551

Moved Cr BH Boys
Seconded Cr KL Carter

That Council approve the development application (DA 101920) for Lot 115 Thomas Road and Lot 117 Mullewa-Wubin Road, Wubin pursuant to Section 68(2) of the *Planning and Development (Local Planning Schemes) Regulation 2015* subject to the following conditions:

1. The development (proposed detonator manufacturing facility and storage magazines) is to be carried out in accordance with the documents endorsed with the Shire's stamp, except where amended by other conditions of this consent. If there is any inconsistency between the above documents, the most recent document shall prevail to the extent of the inconsistency. However, the conditions of this consent shall prevail to the extent of any inconsistency;
2. Without further approval from Shire of Dalwallinu Council, in writing, this approval will lapse and have no force or effect after two years of the date of this permit.

Background

Each year a local government authority is required to impose a Schedule of Fees and Charges as part of the annual budget process. Reviewing the schedule prior to budget adoption allows Council time to consider the proposed fees and charges separate to assessing the budget, allowing more time for review. Also as the 2020-2021 budget will not be adopted prior to 30 June 2020, adoption of the 2020-2021 Schedule of Fees and Charges now will allow them to take effect from 1 July 2020.

5.12	Amended some wording from 'Council' to 'the Shire' and 'developer' to the 'proponent'.
5.14	Amended 'Council' to 'the Shire' and removed the word 'winter' under the objective as roads can be damaged all year round.
5.15	Removed a sentence as the same sentence is stated under the policy.

7.3	Revoked – Council no longer operates caravan Parks in the Shire
7.4	Amended the Department referred to in the policy
7.8	Reinstatement of Caravan Park overflow policy which was revoked in March 2019
7.14	Amended ‘card’ to ‘fob’

It is to be noted that throughout the document ‘Manager Corporate Services’ has been included alongside the Deputy Chief Executive Officer. These two titles need to remain in place as there will be a crossover in the next twelve (12) months of the positions. The Deputy Chief Executive Officer title will be removed during the next review in 2021.

Purpose of Report

Council is requested to consider correspondence received from Innovation Central Midlands WA Inc (ICMWA) requesting Council to approve further funding to the Association over the next three (3) financial years.

Background

ICMWA was established as an Economic Development Alliance between the Shires of Dalwallinu, Wongan Hills and Moora.

The current objectives of the Association are:

- To create an environment of sustainable growth in the Central Midlands Region;
- To identify the economic needs of the Central Midlands Region and make these needs known to key decision makers in Government and private enterprise;
- To foster cooperative and joint venturing initiatives between Member Organisations and appropriate partners on projects of mutual benefit or to further joint interests;
- To concentrate available resources on seeking solutions to identified mutual problems and achieve savings in resources that can be gained through cooperative effort;

Officer Comment

Council received a presentation from Steve Mason, Chief Executive Office of ICMWAI on 25 February 2020. A range of priorities were identified within that presentation which underpins the request for further financial contributions to ICMWAI from the Shires of Dalwallinu, Moora and Wongan Ballidu.

ICMWAI was established as an economic development alliance between the Shires of Dalwallinu, Wongan Ballidu and Moora. To date it is unfortunate that some key projects have not come to fruition. An example was the Aged Housing Development previously approved by the State Government in 2016 to build twenty six (26) independent living units across the three (3) shires. This funding was withdrawn with the change of government. This type of project remains a key focus for the three Shires.

To date Council has contributed \$180,000:

2015-2016 \$100,000

2017-2018 \$50,000

2018-2019 \$30,000.

ICMWAI now seek a further commitment of \$90,000 over the next three (3) years.

It is recommended that the contribution be subject to conditions as follows:

- That the Shires of Moora and Wongan Ballidu also approve the same financial contribution over the same period as the Shire of Dalwallinu;
- Provision of a three (3) year strategic plan with operational forward financial projections to the member Councils prior to 30 June 2020 detailing:
 - Priority projects/key focus areas
 - Key performance measures and outcome areas

- Execution of a Financial Assistance Agreement between the Shires of Dalwallinu, Moora and Wongan Ballidu and ICMWAI for the period 1 July 2020 to 30 June 2023.

Officer Recommendation/Resolution

That Council:

1. Allocate a financial contribution of \$30,000 (plus GST) per annum to Innovation Central Midlands WA Inc (ICMWAI) over the 2020-2021, 2021-2022, 2022-2023 financial years in keeping with the objectives of the Association, subject to the following conditions;
 - a) That the Shires of Moora and Wongan Ballidu also approve the same financial contribution over the same period as the Shire of Dalwallinu;
 - b) Provision of a three (3) year strategic plan from ICMWAI with operational forward financial projections to the member Councils prior to 30 June 2020 detailing:
 - a. Priority projects/key focus areas
 - b. Key performance measures and outcome areas
 - c) Execution of a Financial Assistance Agreement between the Shires of Dalwallinu, Moora and Wongan Ballidu and ICMWAI for the period 1 July 2020 to 30 June 2023.
2. Authorise the Shire President and Chief Executive Officer to sign the Financial Assistance Agreement between the Shires of Dalwallinu, Moora and Wongan Ballidu and ICMWAI.

Advertisements for the disposal of the Buntine Fire Shed were advertised from Wednesday 29 April 2020 on the Shire Website, Facebook Page and in Totally Locally and Kalannie Kapers.

The closing date for the tenders was 4pm, Friday 15 May 2020.

Tenders were opened at the Shire Administration Centre on Friday 15 May 2020 by the Chief Executive Officer with the Senior Finance Officer and Executive Assistant in attendance.

The following tenders were received:

Mr I Nicholls	\$1,000
Mr A Barnes	\$250
Mr S Fitzsimons	\$2,000

The successful tenderer will need to be advised that the shed is to be removed from site within fourteen (14) days from acceptance of the tender so the new shed can be constructed on the site.
