Purpose of Report

The Western Australian Planning Commission (WAPC) has referred an application for the subdivision of the subject property to Council for comment (refer to attachment). Council has until 28 June 2023 to provide the WAPC with their response.

The recommendation is that the WAPC be advised that the Shire of Dalwallinu supports in principle the proposed freehold subdivision.

Background

Subject Property:	Lots 2421, 2165 & 2541 Pollard Road, Kalannie
Land Use Zoning:	Rural
Property Owner:	Woodside Energy Carbon P/L
Applicant:	AJ Marsh P/L
Consent Authority:	Western Australia Planning Commission
Proposed Development:	Property boundary re-alignment of three existing allotments
Value of Development:	N/A

Alan Marsh has submitted a proposal to subdivide three existing allotments by way of boundary re-alignment. The property is located on the eastern side of Pollard Road which itself is situated south-east of Kalannie. The property is zoned 'Rural' under the Local Planning Scheme. The property has previously been cleared for cereal cropping.

The Council at the May 2023 meeting approved an application for a 'Tree Farm' on the subject properties. The development application (DA 112223) gave note of the intention to realign the internal boundaries so as to segregate the more arable land from that proposed for the Tree Farm.

Legislative Implications

State

Planning and Development Act 2005

Shire of Dalwallinu Town Planning Scheme N° 2

Policy Implications

State Planning Policy 2.5 Rural Planning.

Development Control Policy 3.4 – Subdivision of rural land

The Development Control Policy states that when determining subdivision proposals on rural land, the creation of new or smaller lots will be an exception. It then goes on to state that WAPC will consider rural subdivision in exceptional circumstances as being subdivision that proposes ‘to realign lot boundaries with no increase in the number of lots, where the resultant lots will not adversely affect rural land uses’.

Strategic Implications

The *Dalwallinu Local Planning Strategy 2013*.

The preamble to the section of the Strategy that deals with agricultural areas states that:

'The Council will encourage the diversification of agricultural uses in the rural areas where it is seen as an endeavour to spread the range of activities and products.'

This translates into the following recommended action:

'Actively protect prime agricultural land. Subdivision may be considered for lots east of the Rabbit Proof Fence Road, subject to the following;

- *Consideration of the size of rural properties in the locality;*
- *The resulting lots have an area of 200ha or greater;*
- *Allows the continued rural use of the land.'*

Site Inspection

An inspection of the site has been undertaken.

Triple Bottom Line Assessment

Economic implications

There are no known significant economic implications associated with this proposal.

Social implications

There are no known significant social implications associated with this proposal.

Environmental implications

There are no known significant environmental implications associated with this proposal.

Officer Comment

The proposed subdivision will create 3 new lots a with a gross area of 1,028ha by way of an internal boundary alignment. The smallest allotment (proposed Lot 102) will be 200ha in area. The remaining lots will range in size from 282ha (proposed Lot 101) to 545.47ha (proposed Lot 103).

In terms of subdivision, the Dalwallinu Local Planning Scheme requires that land east of the Rabbit Proof Fence have the following attributes:

- *Be consistent with the size of rural properties used for rural land uses in the locality.*
Comment: A cursory review of mapping of the local area supports the view that the proposed allotment sizes are in keeping with other neighbouring properties.
- *200ha or greater in size.*
Comment: All proposed allotments will satisfy this requirement.
- *Allow for continued rural land uses.*
Comment: The owner has been given development approval to establish a Tree Farm on the subject land.

Officer Recommendation

That Council direct the Chief Executive Officer to advise the Western Australian Planning Commission that the Shire endorses the proposed subdivision (App No. 163605) without reservation.

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996 , Regulation 34* . Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards.

Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not in accordance with the requirements of *AASB 1051 Land Under Roads paragraph 15* and *AASB 116 Property, Plant and Equipment paragraph 7*.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 07 May 2023

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

9.3.3 Draft Policy 1.24 Elected Members Discount and Draft Policy 4.17 Employee Discount – Dalwallinu Gymnasium and Dalwallinu Aquatic Centre*

Report Date	27 June 2023

Prepared by	Hanna Jolly, Manager Corporate Services
Supervised by	Jean Knight, Chief Executive Officer

Purpose of Report

Council is requested to consider adopting two new policies for a 50% Elected Member and Employees discount for a membership to the Dalwallinu 24/7 Gymnasium and a season ticket to the Dalwallinu Aquatic Centre.

Background

Currently all employees and Elected Members utilising any Shire recreational facilities are paying to use the services as per the adopted fees and charges. Staff members have been able to salary sacrifice these payments.

We have received a request from an employee regarding this matter.

Policy Implications

Financial Implications

There will be a decrease in revenue depending how many employees and elected members will utilise these services. Currently we have 10 employees utilising these services which would be a decrease in revenue of \$1,900 per annum.

Triple Bottom Line Assessment

Economic implications

There are no known significant economic implications associated with this proposal.

Social implications

There are no known significant social implications associated with this proposal.

Environmental implications

There are no known significant environmental implications associated with this proposal.

Officer Comment

Employee recruitment and retention is very important for the Shire of Dalwallinu. Currently Shire of Dalwallinu offers employees no regular health and wellbeing benefits.

The new policy would encourage Employees and Elected Members to look after their health and wellbeing. The new policy would also improve the employee benefits package which can be used to attract and retain staff.

Many other Local Governments in Western Australia provide free or discounted recreational services to their employees.

Officer Recommendation

That Council:

1. Adopt Policy 1.24 Elected Members Discount – Dalwallinu Gymnasium and Dalwallinu Aquatic Centre

This property is the final one that has been ongoing for many years. The commencement of legal action at a much earlier stage in the process is proving successful.

Site Inspection

Site inspection undertaken: Not applicable

Triple Bottom Line Assessment

Economic implications

Renewal of the lease will allow the applicant to continue to use the workshop for maintenance of his own equipment and provide him the ability to continue to offer a service for light fabrication and turning and milling of parts.

Social implications

There are no known significant social implications associated with this proposal.

Environmental implications

There are no known significant environmental implications associated with this proposal.

Officer Comment

Unit 1, 18 Huggett Drive has been leased to Arro Enterprises as follows:

1 July 2017 to 30 June 2020 - \$10,560 (inc GST)

1 July 2020 to 30 June 2023 - \$10,560 (inc GST)

Given there has been no rental increase since 2017, it is the Officer's recommendation that the lease be increased by 10% to \$11,616.00 (inc GST) and the other conditions of the existing lease remain as is. The increase in the lease payment is considered acceptable as Ratepayers and other Shire tenants have experienced increases since 2017.

Officer Recommendation

That Council:

1. Resolves to renew the lease with Arro Enterprises for a three (3) year term from 1 July 2023 to 30 June 2026 for the amount of \$968 per month (including GST);
2. Authorise the Chief Executive Officer and Shire President to sign and affix the Common Seal to the lease document for point 1 above.

Introduction

This Community Engagement Plan has been developed as identified in the Shire of Dalwallinu Strategic Community Plan 2017 – 2027.

Community is made up of the people who live, work, visit or invest in the Shire of Dalwallinu Local Government Area. Community Engagement is the process through which the Community are informed about and/or invited to contribute to proposals relating to Shire events, issues, plans, projects and services.

Purpose

A Community Engagement Plan will:

- Establish a standard process for community engagement;
- Ensure that the process is implemented by Shire staff and external consultants;
- Ensure that inclusive and efficient consultation is undertaken at all times;
- Ensure that the Community is kept informed of decisions.

A Community Engagement Plan will ensure that:

- Community members are given the opportunity to contribute to processes;
- Council has the opportunity to consider Community input before making decisions.

Following the principles of the *International Association for Public Participation Australasia (IAP2) Public Participation Spectrum* the Plan contains four key strategies:

1. Inform
2. Consult
3. Involve
4. Collaborate

Each strategy has a specific goal, a commitment to the Community and a set of methodologies.

Scope

This Community Engagement Plan relates to many activities undertaken by the Shire with the exception of notifications in relation to statutory notifications. Where legislative requirements exist which address specific information / consultation processes, the legislative requirements take precedence.

Benefits

There are a number of benefits from having a Community Engagement Plan, including:

- Commits the Shire and Council to being open and accountable;
- Assists the Shire and Council to plan services that continue to meet Community needs;
- Enables the Shire and Council to prioritise services and make better use of resources;
- Allows the broadest range of views to be expressed;
- Ensures the maximum amount of information is gathered prior to making decisions;
- Sees the Shire, Council and Community working together to achieve balanced decisions;
- Offers opportunities for the Community to contribute to and influence outcomes which directly affect their lives;
- Ensures an open and familiar process which becomes easier for Community members to participate in.

Please note: *The Community is consulted about a wide variety of issues by a range of people in many ways. The Shire recognises this and so as not to over consult (we hear you – “we have already told you what we want, why are you asking us again?”) we may use existing timely research and findings of other consultations that the Shire or other agencies have recently conducted.*

Community Engagement Strategy 1: Inform

Information dissemination is the primary form of community engagement. In order to be able to actively engage in the Shire's decision making processes, the Community requires information in a variety of ways.

Goal

To provide the Community with appropriate information regarding Shire events, issues, plans, projects and services to ensure that they understand the problems, alternatives, opportunities and / or solutions.

Commitment to the Community

"We will keep you informed, ensuring that information is accessible, relevant and easy to understand"

Methodology: How

By ensuring that up-to-date information is available on the Shire's processes, meeting agendas / minutes, services, projects and on how residents may feed back any issues, concerns and suggestions for service improvements. All information must be in a form that is accessible to all groups in the Community ie. people with disabilities, people with computer literacy difficulties, young people, the aged and, people from diverse cultural backgrounds.

The four main channels of communication for the Shire of Dalwallinu will be;

- **Advertising – Shire Newsletter** – available to subscribed community members, on the Shire Facebook Page and Shire website and available at the Shire Admin Centre and Dalwallinu Discovery Centre and various businesses in the townsite;
- **Email Notification** - to Shire lists, including but not limited to Community Groups, identified Stakeholders and subscribed Community members (through the Shire newsletter);
- **Website** - www.dalwallinu.wa.gov.au, an up-to-date source of information on Shire events, issues, plans, projects and services, including the Shire newsletter;
- **Facebook** – Shire of Dalwallinu, an up-to-date source of information on Shire events, issues, plans, projects and services.

Additional methods could include;

- **Advertising - Newspapers** – where statutory requirements exist, advertisements will be placed in relevant newspapers.
- **Fact Sheets** – for more complex issues, flyers, posters, brochures and reports will be available from Shire facilities, notice boards, the web site or via mail upon request.
- **Media Releases / Interviews** – as major events, issues, plans, projects and service initiatives arise.

For emergency information dissemination only;

- **SMS** - subscribed list.

When

Ongoing, as Shire events, issues, plans, projects and services arise or are scheduled.

Who

Entire Community, noting that Community members need to be aware of the methods used.

Evaluation and Accountability

Through the Shire of Dalwallinu Community Engagement Checklist (page 10). The use of this Checklist (and/or statutory / departmental checklists / templates) will be monitored on an ongoing basis by an allocated member of staff.

Community Engagement Strategy 2: Consult

Consultation takes place when feedback is required in relation to:

- The development of new strategies and plans;
- The review and evaluation of existing strategies and plans;

Goal

Commitment to the Community

Methodology: How

Community consultation techniques will vary depending on who is being consulted and the nature / complexity of the issue. Available resources will also determine the type of techniques that can be utilised ie. the timeframe, funds and staff available.

In addition to the information techniques, one of the following consultation techniques could be utilised;

- **Information Stalls:** staffed displays at local Agricultural show and other events. The Community can drop in at their convenience to peruse information and have their questions answered by, and/or provide feedback to Shire staff;
- **Public Meetings / Forums** - at various locations / localities, as appropriate;
- **Surveys / Questionnaires:** a series of relevant questions with the collated replies available for consideration and distribution. These may be conducted via mail, email / web or in person, for example venues could include but are not limited to homes / schools / businesses / community meetings to ensure the inclusion of Community members who may not normally be able to participate in community engagement.

When

The Shire and Council will ensure that the Community is consulted on issues which impact on or are of concern to the Community in a timely manner to allow adequate comment to occur and be analysed in order to inform decision making processes.

Who

All Community members who are identified as being directly impacted will be consulted, with the whole community being informed. Stakeholders will vary according to the issue, but could include residents, ratepayers, businesses, volunteers, those who visit or work in the municipality, other service providers/agencies, community groups, other levels of government, peak bodies, etc. It could also include particular groups within the Community, ie. seniors, families, children, youth, different ethnic groups, business people, people with a disability, etc.

Community Engagement Strategy 3: Involve

Involvement enables the Community to provide ongoing and in-depth input into community planning and into the development of solutions that are best able to meet Community needs. It enables the Community to have substantial input into the development of services.

Goal

To work on an ongoing basis with the Community to ensure that ideas, concerns and aspirations are listened to and understood and that Community knowledge is harnessed for the benefit of all.

Commitment to the Community

“We will work with you on an ongoing basis to ensure that your ideas, concerns and aspirations are considered, we will provide feedback on Shire decisions”

Methodology: How

Community involvement techniques will vary depending on who is being involved and the nature / complexity of the issue. Available resources will also determine the type of techniques that can be utilised ie. the timeframe, funds and staff available.

In addition to the information and consultation techniques one of the following involvement techniques could be utilised;

- **Focus Groups:** open by invitation to specific groups with relevant experience/involvement with the issue/project;
- **Referendum / Community Ballots:** a single question is posed, with the option to vote “YES” or “NO”, with a clear explanation of the outcomes pertaining to each selection;
- **Workshops:** open to the Community with the aim of briefing interested Community members and receiving their feedback.

When

The Shire will ensure that the Community is involved on issues which impact on and / or are of concern to the Community or to any group within the Community in a timely manner to allow adequate involvement to occur and be analysed in order to inform decision making processes.

Who

Community members who are impacted will be invited to be involved. Stakeholders will vary according to the issue, but could include residents, ratepayers, businesses, volunteers, those who visit or work in the area, other service providers/agencies, community groups, other levels of government, peak bodies, etc. It could also include particular groups within the Community, ie. seniors, families, children, youth, different ethnic groups, business people, people with a disability, etc.

Evaluation and Accountability

Through the Shire of Dalwallinu Community Engagement Checklist (page 10). The use of this Checklist (and/or statutory / departmental checklists / templates) will be monitored on an ongoing basis by an allocated member of staff.

Community Engagement Strategy 4: Collaborate

Collaboration enables Council to partner with the Community to ensure that each aspect of the decision making process is worked on together.

Goal

To work as partners to gain higher quality and more specialist input into the Shire's planning and decision making processes.

Commitment to the Community

"We will partner with you to receive your advice and innovation, we will consider then incorporate your recommendations into the decisions made wherever feasible"

Methodology: How

Community collaboration techniques will vary depending on who is being collaborated with and the nature / complexity of the issue. Available resources will also determine the type of techniques that can be utilised ie. the timeframe, funds and staff available.
