#### Purpose of Report

Council is requested to adopt the 2024-2025 Draft Budget as presented.

#### Background

Local Governments must prepare annual budgets in the format prescribed in the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*.

Council operates the Dalwallinu Sewerage Scheme under license from the Water Corporation. The scheme is still eligible for a subsidy for loans taken out for the establishment of the facility, but the Scheme has run at a profit for the last 15 years and no subsidy can be claimed.

The Water Corporation will continue to provide a schedule of rates and charges until the loan expires in 2025. Accordingly, Council is able to adopt the recommended rates or a rate and charge of its own calculation.

The Shire of Dalwallinu commenced the 2024-2025 budget process in March 2024. At this time members of the public were invited to submit requests for works and services to be considered during the budget deliberations.

Council Officers were also requested to make submissions and recommendations for budget inclusions. This was to ensure that not only the standard functions of Council, but also other projects identified within strategic planning documents, would be appropriately included for Council consideration.

Two budget workshops were held with the Council and Senior Management on 21 May 2024 and 25 June 2024.

### **Sewerage Charges**

The Water Corporation has advised that Cabinet has approved an increase for rates levied on subsidised schemes and has provided a schedule of rates and charges for 2024-2025. It is recommended that council continues to use the schedule as a guide for its Dalwallinu Sewerage Scheme.

The Water Corporation have based the new 2024-2025 schedule of charges on a 2.50% increase for non-residential properties and 2.50% increase for residential properties.

### **Waste Collection Charges**

It is Council's intention to meet the cost of the waste collection service by way of a service charge imposed under the *Waste Avoidance and Resource Recovery Act 2007*.

Waste Collection is provided under a contract and the cost per collection is, in part, determined by the number of services. The cost associated with the maintenance of the waste disposal sites is to be covered under the general rate. This year the charges were increased by approximately 7%.

### **General Rates and Minimum Rates**

The unimproved value (UV) properties and the gross rental value (GRV) properties were re-valued by Value General Officer for the 2024-2025 financial year. The rate in the dollar for UV properties in 2024-

2025 is 0.010045 (0.012310 in 2023-2024) whilst the rate in the dollar for GRV properties is 0.08062 in 2024-2025 (0.09882 in 2023-2024).

## **Schedule of Fees and Charges**

Council reviewed the Schedule of Fees and Charges and adopted them at the April 2024 Ordinary Council Meeting in order for the fees to take effect from 1 July 2024. The fees & charges were increased by approximately 4.1% for 2024-2025.

DFES levies (ESL) are the subject of separate legislation and do not form part of Council's Municipal Fund. Category 4 properties, those in the town supported by the Dalwallinu Volunteer Fire & Rescue Service, are based on a rate of 0.005094 in the dollar (0.004883 in 2023-2024), with a minimum of \$103.00 and maximum of \$178.00 for residential, farming and vacant land, and a minimum of \$103.00 and maximum of \$102,000.00 for commercial, industrial and miscellaneous. All other properties within the Shire that are Category 5, \$103.00 (\$98.00 in 2023-2024) fixed levy.

**SHIRE OF DALWALLINU  
NOTES TO AND FORMING PART OF THE BUDGET  
FOR THE YEAR ENDED 30 JUNE 2025**

## 1 BASIS OF PREPARATION

The annual budget is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

### Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AASB 16* which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

### The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 11 to the annual budget.

### 2023/24 actual balances

Balances shown in this budget as 2023/24 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

### Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

### Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

### Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

### Statement of Cashflows

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

### Initial application of accounting standards

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- *AASB 2020-1 Amendments to Australian Accounting Standards*
  - *Classification of Liabilities as Current or Non-current*
- *AASB 2022-5 Amendments to Australian Accounting Standards*
  - *Lease Liability in a Sale and Leaseback*
- *AASB 2022-6 Amendments to Australian Accounting Standards*
  - *Non-current Liabilities with Covenants*
- *AASB 2023-1 Amendments to Australian Accounting Standards*
  - *Supplier Finance Arrangements*
- *AASB 2023-3 Amendments to Australian Accounting Standards*
  - *Disclosure of Non-current Liabilities with Covenants: Tier 2*

It is not expected these standards will have an impact on the annual budget.

- *AASB 2022-10 Amendments to Australian Accounting Standards*

- *Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*, became mandatory during the budget year. Amendments to *AASB 13 Fair Value Measurement* impacts the future determination of fair value when revaluing assets using the cost approach. Timing of future revaluations is defined by regulation 17A of *Local Government (Financial Management) Regulations 1996*. Impacts of this pronouncement are yet to be quantified and are dependent on the timing of future revaluations of asset classes. No material impact is expected in relation to the 2024-25 statutory budget.

### New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- *AASB 2014-10 Amendments to Australian Accounting Standards*
  - *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- *AASB 2021-7c Amendments to Australian Accounting Standards*
  - *Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]*
- *AASB 2022-9 Amendments to Australian Accounting Standards*
  - *Insurance Contracts in the Public Sector*
- *AASB 2023-5 Amendments to Australian Accounting Standards*
  - *Lack of Exchangeability*

It is not expected these standards will have an impact on the annual budget.

### Judgements, estimates and assumptions

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- estimation of fair values of land and buildings and investment property
- impairment of financial assets
- estimation uncertainties and judgements made in relation to lease accounting
- estimated useful life of assets
- estimation of provisions
- estimation of fair value of leases

The Shire did not raise specified area rates for the year ended 30th June 2025.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2024/25 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

**FOR THE YEAR ENDED 30 JUNE 2025**

### 3. NET CURRENT ASSETS

#### (f) MATERIAL ACCOUNTING POLICIES

##### CURRENT AND NON-CURRENT CLASSIFICATION

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

##### TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

##### PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

##### INVENTORIES

###### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

##### SUPERANNUATION

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

##### LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Shire's intentions to release for sale.

##### GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

##### CONTRACT LIABILITIES

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

##### TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

##### PROVISIONS

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

##### EMPLOYEE BENEFITS

###### Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

###### Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

**FINANCIAL ASSETS AT AMORTISED COST**

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

**RECOGNITION OF ASSETS**

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

**GAINS AND LOSSES ON DISPOSAL**

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

**DEPRECIATION**

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings - non-specialised	30 to 50 years
Furniture and equipment	4 to 10 years
Plant and equipment	5 to 20 years
Infrastructure - roads	
-Clearing and earthworks	Not depreciated
-Pavement	40 years
Infrastructure - footpaths	20 years
Infrastructure - drainage	50 years
Infrastructure - parks and ovals	10 to 40 years
Other infrastructure - other	10 to 50 years
Right of use - furniture and fittings	

**AMORTISATION**

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

**BORROWING COSTS**

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate.

MATERIAL ACCOUNTING POLICIES

LEASES

At the inception of a contract, the Shire assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

LEASE LIABILITIES

The present value of future lease payments not paid at the reporting date discounted using the incremental borrowing rate where the implicit interest rate in the lease is not readily determined.
